E-Book Robert L. Stamper, Marc F. Lieberman, Michael V. Drake, 2009-06-18 Authored by three prominent specialists in the field this text provides comprehensive coverage of diagnostic and treatment modalities for optimal glaucoma management. Revised throughout this new edition presents the latest guidance in clinical examination, randomized trials, medical treatment, laser therapy, and surgical procedures. Hundreds of illustrations with many classic black and white figures from the previous editions supplemented with new color images depict the features of glaucomas and step by step procedures for their management while expanded use of highlighted boxes, lists, and summary tables make the material easy to access. Evidence based and updated information on all aspects of the glaucomas including physiology, genetics, interventional trials, and new surgical techniques offer a well rounded foundation of knowledge for making the most informed diagnoses and choosing the most effective course of treatment. Combines the cumulative experience of three prominent glaucoma specialists addressing a full range of clinical needs for practitioners of all levels for a uniquely written coherent perspective. Includes extensive references to current and historically important sources to provide comprehensive interpretation of the latest medical literature. Synthesizes a classical approach to the glaucomas based on seven earlier editions spanning over 40 years with the most up to date evidence based and epidemiologically derived classifications and outcomes. Coherently correlates with authoritative consensus documents on key areas of glaucoma drawn up by the world wide specialists of the World Glaucoma Association and reprinted in the text. Revamps traditional teachings on the angle closure glaucomas in concert with the newest international literature and technologies to keep you up to date on the latest advances. Illustrates detailed surgical interventions applicable to the complete spectrum of clinical settings from the developing world through contemporary operating rooms. Examines the newest and most promising developments in pharmacology, laser, and surgical advances for glaucoma management to enable you to choose the most effective patient approach. Illustrates invaluable but little known instruments for clinical and research diagnoses including optic nerve cupping scales, bleb assessment instruments, and more.

The Glaucoma Book Paul N. Schacknow,John R. Samples,2010-06-10

Putting together a comprehensive multiauthored text is a daunting task However the benefits may justify the effort Such is the case with regards to the present Glaucoma Book It is not likely that many ophthalmologists or others will decide at the end of a busy day to pour themselves a cocktail and settle into a comfortable chair with this large tome in hand with the

intent of reading it from start to finish. A pity! It would make several enjoyable and profitable days of good reading. The text starts with comments by an individual who is strongly grounded in the fundamentals of being a good physician. Ivan Goldberg has used his brilliance, his wide international experiences and knowledge and his commitment to assuring that physicians know their craft to provide a penetrating perspective on ophthalmology today and tomorrow. The Glaucoma Book ends with commentaries by the editors John Samples, a true physician scientist and Paul Schacknow, an experienced community based clinician. Samples' essay 'What Really Causes Glaucoma' nicely describes the leading theories underlying the cell biology of glaucoma. In 'What Do We Know Now? What Do We Need to Know About Glaucoma?' Schacknow offers an essay on some of the controversial ideas raised within the book and speculates on future research.
