Argumentation Lapakko Ph. D. David Lapakko Ph. D., David Lapakko, 2009-10 Argumentation Critical Thinking in Action 2nd ed explores a wide variety of issues and concepts connected to making arguments responding to the arguments of others and using good critical thinking skills to analyze persuasive communication Key topics include the nature of claims evidence and reasoning common fallacies in reasoning traits associated with good critical thinking how language is used strategically in argument ways to organize an argumentative case how to refute an opposing argument or case cultural dimensions of argument and ways to make a better impression either orally or in writing **Argumentation and Advocacy**, 2006

Rhetoric and Discourse in Supreme Court Oral Arguments Ryan Malphurs, 2013-01-04 While legal scholars psychologists and political scientists commonly voice their skepticism over the influence oral arguments have on the Court's voting pattern this book offers a contrarian position focused on close scrutiny of the justices' communication within oral arguments Malphurs examines the rhetoric discourse and subsequent decision making within the oral arguments for significant Supreme Court cases visiting their potential power and danger and revealing the rich dynamic nature of the justices' interactions among themselves and the advocates In addition to offering advancements in scholars' understanding of oral arguments this study introduces Sensemaking as an alternative to rational decision making in Supreme Court arguments suggesting a new model of judicial decision making to account for the communication within oral arguments that underscores a glaring irony surrounding the bulk of related research the willingness of scholars to criticize oral arguments but their unwillingness to study this communication With the growing accessibility of the Court's oral arguments and the inevitable introduction of television cameras in the courtroom this book offers new theoretical and methodological perspectives at a time when scholars across the fields of communication law psychology and political science will direct even greater attention and scrutiny toward the Supreme Court **Philosophy and Rhetoric in Dialogue** Gerard A.

Hauser, 2010-11-01 *Advocacy Practice for Social Justice* Richard Hoefer, 2015 Current economic and social forces are creating a society with less equality justice and opportunity for all but the privileged few Social workers are called upon by their code of ethics to counteract these trends and actively work to achieve social justice Hoefer's empirically based step by step approach demonstrates how to integrate advocacy for social justice into everyday social work practice The book shows through anecdotes case studies examples and the author's own personal experiences exactly how advocacy can be conducted with successful outcomes Each chapter builds upon the previous to provide a concise yet detailed blueprint for conducting successful advocacy The previous two editions of this book have been used and admired by professors and students alike Students value its clarity and praise the book for opening their eyes to what they often believed was the scary and bad world of politics and policy After reading the book they are motivated to become advocates for social justice because they understand how to do so If you want to empower your students to effect changes in laws regulations and other types of policy
