focus on improving instruction in order to bolster student achievement In a straightforward and accessible fashion Herman and Winters explain three overarching Turnaround Tasks that frame these steps and the necessary and sometimes drastic actions that must be taken by school leaders as they use data to strategically choose implement monitor and revise school interventions A dedicated online toolkit offers numerous worksheets and templates that support each stage of the process and help school leaders scaffold the work of educators to put an aggressive turnaround plan into action while a leadership guide at the end of the book provides guidance to turnaround teams and facilitators

Losing Our Minds Deborah L. Ruf, 2005 Wouldn't it be a disgrace if we lost the brightest students now attending our nation's schools Dr Deborah L Ruf establishes that there are far more highly gifted children than previously imagined yet large numbers of very bright children are never discovered by their schools Using 78 gifted and highly gifted children as her examples she illustrates five levels of giftedness Parents will be able to estimate which of the five levels of giftedness their child fits by comparing their own child's developmental milestones to those of the children described in the book This book contains practical advice for parents including how to find a school that works for your child Book jacket
