Alexander Pope The Poet And The Landscape:

Alexander Pope Mavis Batey, 1999 This work provides a look at Pope's relationship with the leading garden makers of his time. Forever planning and plotting for his own grotto and for his modest five acres in Twickenham, his ideas were also sought at many of the great estates. His importance to Lord Burlington at Chiswick, Henrietta Howard at Marble Hill, and above all to William Kent, the great designer, is made abundantly clear. The author sets out to throw new light on her subject and show why Pope has been and remains so crucial to our landscape. *The Figure in the Landscape* John Dixon Hunt, 1989-08

Eighteenth-century England saw the rise of a peculiarly English art form: landscape gardening, and a corresponding change in attitudes toward the natural world. While the French, who lived under tyranny, had a tightly organized, restrictive garden, the free English enjoyed gardens where they were at liberty to wander. John Dixon Hunt examines eighteenth-century letters, literary and critical works, biographies, paintings, prints, and drawings to trace the gradual movement from formal regularity toward a carefully calculated naturalness. **The Poetry of Translation** Matthew Reynolds, 2011-09-29

A very wide-ranging book which launches a new theory of poetry translation and pursues it through readings of poem translations from across the history of English literature. It engages with the key debates in translation studies and offers new interpretations of major works such as Pope's *Iliad*, Pound's *Cathay*, and Dryden's *Aeneis*. Plants and Gardens as Artefacts in Transcultural Contexts Minna Törmä, 2025-09-30

This edited volume explores the ways in which the object biography or object itinerary approach could be adapted to frame research on animate objects such as plants and gardens in transcultural contexts. By treating these animate elements as objects in the manner of artefacts and looking at their individual histories, we gain a more nuanced sense of how data accumulated, how new knowledge developed through printed texts and specimen collections, and how the creators of gardens or landscapes formed their collections. Chapters explore the shifts in meanings when objects from diverse origins meet in new cultural contexts where their new owners create assemblages based on their perception of the world. The book will be of interest to scholars working in art history, material culture, and cultural geography. *Print, Visuality, and Gender in Eighteenth-century Satire* Katherine Mannheimer, 2011

This study interprets eighteenth-century satire's famous typographical obsession as a fraught response to the Enlightenment's ocularcentric epistemological paradigms and to a print cultural moment identified by book historians as increasingly visual. As the first to pay widespread attention to format layout and visual advertising strategies, the Augustans were convinced of the ability of their texts to function as a kind of optical machinery, rivaling that of the New Science, enhancing readers' physical and moral vision while at the same time they feared the dangers of an overly scrutinizing gaze as one that might undermine the viewer's natural faculty for candor, sympathy, delight, and desire. Mannheimer studies this distrust of the empirical gaze and its applications in print to the inherent gender politics and broader ethical concerns of ocularcentrism in the works of Montagu, Swift, Pope, and Fielding. These writers sought to ensure that print itself never

became either a mere tool of or an inert object for the gaze but rather that it remained a dynamic and interactive medium by which readers could learn both to see and to see themselves seeing

The Cambridge Companion to Alexander Pope Pat Rogers, 2007-12-06 Alexander Pope was the greatest poet of his age and the dominant influence on eighteenth century British poetry His large oeuvre written over a thirty year period encompasses satires odes and political verse and reflects the sexual moral and cultural issues of the world around him often in brilliant lines and phrases which have become part of our language today This is the first overview to analyse the full range of Pope s work and to set it in its historical and cultural context Specially commissioned essays by leading scholars explore all of Pope s major works including the sexual politics of *The Rape of the Lock* the philosophical enquiries of *An Essay on Man* and the Moral Essays and the mock heroic of *The Dunciad* in its various forms This volume will be indispensable not only for students and scholars of Pope s work but also for all those interested in the Augustan age

Landscapes of Memory and Experience Jan Birksted, 2012-12-06 It has been argued that the history of landscape and of gardens has been marginalized from the mainstream of art history and visual studies because of a lack of engagement with the theories methods and concepts of these disciplines This book explores possible ways out of this impasse in such a way that landscape studies would become pivotal through its theoretical advances since landscape studies would challenge the underlying assumptions of traditional phenomenological theory Thus the history and theory of twentieth century landscape might not only once again share concepts and methods with contemporary art and design history but might in turn influence them A complementary sequel to *Relating Architecture to Landscape* this volume of essays explores further areas of interest and discussion in the landscape architecture debate and offers contributions from a team of well known researchers teachers and writers The choice of topics is wide ranging and features case studies of modern and contemporary schemes from the USA Far East and Australasia

Place-making for the Imagination:

Horace Walpole and Strawberry Hill Marion Harney, 2016-04-08 Drawing together landscape architecture and literature Strawberry Hill the celebrated eighteenth century Gothic villa and garden beside the River Thames is an autobiographical site where we can read the story of its creator Horace Walpole This man of taste created private resonances pleasure and entertainment a collusion of the historic the visual and the sensory Above all it expresses the inseparable integration of house and setting and of the architecture with the collection all specific to one individual a unity that is relevant today to all architects landscape designers and garden and country house enthusiasts Avoiding the straightforward architectural description of previous texts this beautifully illustrated book reveals the Gothic villa and associated landscape to be inspired by theories that stimulate *The Pleasures of the Imagination* articulated in the series of essays by Joseph Addison 1672 1719 published in the *Spectator* 1712 Linked to this argument it proposes that the concepts behind the designs for Strawberry Hill are not based around architectural precedent but around eighteenth century aesthetics theories antiquarianism and matters of Taste Using architectural quotations from Gothic tombs Walpole expresses the mythical idea that it was based on monastic

foundations with visual links to significant historical figures and events in English history The book explains for the first time the reasons for its creation which have never been adequately explored or fully understood in previous publications The book develops an argument that Walpole was the first to define theories on Gothic architecture in his *Anecdotes of Painting* 1762 71 Similarly innovative *The History of the Modern Taste in Gardening* 1780 is one of the first to attempt a history and theory of gardening The research uniquely evaluates how these theories found expression at Strawberry Hill This reassessment of the villa and its associated landscape is a landmark study

Literary Milieux David Womersley, Richard Anthony McCabe, 2008 The essays range from Shakespeare and early modern literature to Wordsworth They evince scrupulous care over the handling of evidence an interdisciplinary impulse yoked always to a prizing of the literary particularly the poetic a willingness to embrace an ambitious argument where it can be supported a humaneness of temper particularly in polemic Latent within them all is a wrestling with the central problem of text and context **BOOK JACKET**

Landscape and Literature Stephen Siddall, 2009-05-21 Critical introductions to a range of literary topics and genres *Landscape and Literature* introduces students to the exploration of different ways in which landscape has been represented in literature It focuses on key aspects of this topic such as the importance of pastoral contrasts between city and country eighteenth century developments from neo classical to picturesque and Romantic ideas of the sublime regional novels of the nineteenth and twentieth centuries and varied styles of twentieth century poetry from the Georgian poets to Heaney and Hughes Poems and prose extracts from writers such as Marvell Wordsworth George Eliot Hardy Lawrence and Seamus Heaney are included

Landscape, Nature, and the Body Politic Kenneth Olwig, 2002-06-14 This text is an exploration of the origins and lasting influence of two contesting but intertwined discourses that persist today when we use the words landscape country scenery and nature

Sanderson Miller and His Landscapes Jennifer Meir, 2006 Sanderson Miller 1716-80 of Radway in south Warwickshire is well known for his architecture but his creative landscape designs have been largely overlooked Through meticulous research and a selection of illustrations this book attempts to paint a portrait of Sanderson's life

Gardens of Court and Country David Jacques, 2017-01-01 *Gardens of Court and Country* provides the first comprehensive overview of the development of the English formal garden from 1630 to 1730 Often overshadowed by the English landscape garden that became fashionable later in the 18th century English formal gardens of the 17th century displayed important design

innovations that reflected a broad rethinking of how gardens functioned within society With insights into how the Protestant nobility planned and used their formal gardens the domestication of the lawn and the transformation of gardens into large rustic parks David Jacques explores the ways forecourts flower gardens bowling greens cascades and more were created and reimagined over time This handsome volume includes 300 illustrations including plans engravings and paintings that bring lost and forgotten gardens back to life

William Wordsworth and the Ecology of Authorship Scott Hess,2012 In William Wordsworth and the Ecology of Authorship Scott Hess explores Wordsworth s defining role in establishing what he designates as the ecology of authorship a primarily middle class nineteenth century conception of nature associated with aesthetics high culture individualism and nation Instead of viewing Wordsworth as an early ecologist Hess places him within a context that is largely cultural and aesthetic The supposedly universal Wordsworthian vision of nature Hess argues was in this sense specifically male middle class professional and culturally elite factors that continue to shape the environmental movement today
