Test / Quiz Bank

Each objective from the lessons in the chapter has multiple choice and short answer problems. The answers for each problem are beside the problem and are also at the end of the section. Choose the problems that you wish to use to create a quiz or test. Highlight and copy the problems into a new document or replace problems from the sample questions (at the end of the document). It is best not to change the numbering until you have made your answer key. Copy and paste a second copy of your final version and delete the answers with the answers to them to create the student version.
