Pediatric Trauma Care II AHC Media,

LLC,2014-03-17 Pediatric trauma continues to have a significant impact on the health and well being of children in the United States Trauma continues to be the leading cause of death in children 1 to 18 years of age and accounted for more than 14 000 deaths among all children 0 to 18 years of age In 2008 there were more than 8.6 million nonfatal injuries among newborn to 18 year olds with an injury rate of greater than 1 in 10 There is little debate that a coordinated effort and pediatric specific advances in pediatric trauma systems prehospital care and hospital care and injury prevention can have a positive impact on pediatric trauma outcomes in the United States However there are still gaps in access to centers that deliver pediatric focused trauma care especially in rural areas Furthermore there are differing views between different centers regarding the optimal approach to the initial evaluation and management of the pediatric trauma patient This book is targeted to review critical aspects of the care of the pediatric trauma patient highlighting the most common and critical injuries encountered in the acute care setting *Textbook of Acute Trauma Care* Peter Lax,2022-01-05 This book provides a systemic approach to acute trauma care in line with the ABCDE paradigm and up to date information on assessing and managing major trauma from the pre hospital to the rehabilitation phase The book's early sections are dedicated to identifying and managing pathology caused by massive haemorrhage airway breathing circulation or neurological trauma and examining the current evidence base relating to their management The book then builds from fundamental skills to advanced interventions so that each level of responder can identify and implement aspects of clinical practice that will be of benefit to them at their stage This approach also explains advanced interventions that may be executed subsequently explaining how each phase of care sits together This has a further benefit of producing seamless care for patients by practitioners of different levels using this book as a reference point Later sections deal with specifics of in hospital trauma care by speciality including the explanation of decision making processes by specialities use of diagnostic and interventional radiology rehabilitation and psychological aspects of trauma care The *Textbook of Acute Trauma Care* also focuses on non clinical issues relevant to trauma such as training and logistics of retrieval and repatriation aviation considerations in HEMS legal and forensic evidence considerations and ethical issues dealing with trauma patients In addition the book contains chapters from international experts on cognitive and human factors relating to healthcare and suggests strategies for training and minimising errors This book is an essential resource for all grades of practitioner from first responders to Consultant Attending Physician level providers *Surgical Critical Care and Emergency Surgery* Forrest "Dell" Moore,Peter M. Rhee,Carlos J. Rodriguez,2022-07-05 *Surgical Critical Care and Emergency Surgery* In this newly revised edition of *Surgical Critical Care and Emergency Surgery* a distinguished team of emergency surgeons deliver a one of a kind question and answer book on the growing specialty of surgical critical care and acute surgery ideal for those caring for the critically ill and injured surgical patient This book reviews surgical critical care emergency surgery burns and trauma and includes full color high quality surgical photographs to aid understanding Readers will also benefit from access to a website that offers

additional topics and tests as well as an archive of all test questions and answers from previous editions The authors focus throughout is on the unique problems and complexity of illnesses of the critically ill and injured surgical patient and the specialist daily care that such patients require Perfect for the acute care surgeon surgical intensivist and those in training Surgical Critical Care and Emergency Surgery will also earn a place in the libraries of those working in or with an interest in critical care
