Principles of Addiction Medicine Richard K. Ries, Shannon C. Miller, David A. Fiellin, 2009 This respected text from the American Society of Addiction Medicine is valuable for all physicians and mental health personnel who specialize in addiction medicine and who treat patients with addiction disorders The chapters blend scientific principles underlying addiction with the practical essentials of clinical addiction medicine Many of the contributors are affiliated with leading government agencies that study addiction and its science such as the National Institute on Alcohol Abuse and Alcoholism and the National Institute on Drug Abuse The book will appeal to a wide and interdisciplinary range of professionals especially those with interest or duties relating to addiction related disorders and in particular physicians seeking certification status via either the American Board of Addiction Medicine or the American Board of Psychiatry and Neurology A companion Website will offer the fully searchable text *Pain and Chemical Dependency* Howard Smith, Steven Passik, 2008-04-25 Both pain and addiction are tremendous public health problems Practitioners of every stripe say that they learned precious little about pain or addiction in their training and readily admit that instruction on the interface of pain and addiction is nonexistent The recent problem of prescription drug abuse has only served to highlight the fact that these two worlds need unification those who treat pain must be informed about the risks of controlled substances and those who treat addiction need to better and

more fully understand their benefits Nowhere is the pooled knowledge of pain management and addiction medicine brought together to allow for a greater appreciation of the risks of addiction when treating people with pain and the pain problems of those with chemical dependency This major new volume brings this vast knowledge base together presenting an array of perspectives by the foremost thought leaders at the interface of pain and chemical dependency and is the most comprehensive resource on the subject to date There have been an increasing number of seminars devoted to this topic and a new society The International Society on Pain and Chemical Dependency has recently been formed and this volume is destined to become the classic text on this multidisciplinary subject It will appeal to anesthesiologists neurologists rehab physicians palliative care staff pain center physicians and psychologists
