Epic Voices Robert Arlett, 1996 The path of the modern novel has been marked by a dialectic of seemingly rival impulses while certain novelists have sought to deal with wide scale social and political dimensions of modern existence others have concerned themselves primarily with interior sensibility **LIFE**, 1967-09-15 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE.com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today's people and events They have free access to share print and post images for personal use [The Cinema of Norman Mailer](#) Justin Bozung, 2017-09-07 The Cinema of Norman Mailer Film is Like Death not only examines the enfant terrible writer's thoughts on cinema but also features interviews with Norman Mailer himself The Cinema of Norman Mailer also explores Mailer's cinema through previously published and newly commissioned essays written by an array of film and literary scholars enthusiasts and those with a personal philosophical connection to Mailer This volume discusses the National Book Award and Pulitzer Prize winning author and filmmaker's six films created during the years of 1947 and 1987 and contends to show how Mailer's films can be best read as cinematic delineations that visually represent many of the writer's metaphysical and ontological concerns and ideas that appear in his texts from the 1950s until his passing in 2007 By re-examining Mailer's cinema through these new perspectives one may be awarded not just a deeper understanding of Mailer's desire to make films but also find a new alternative vision of Mailer himself Norman Mailer was not just a writer but more he was one of the most influential Postmodern artists of the twentieth century with deep roots in the cinema He allowed the cinema to not only influence his aesthetic approach but sanctioned it as his easiest crafted analogy for exploring sociological imagination in his writing Mailer once suggested Film is legitimately more interesting than books and with that in mind readers of Norman Mailer might begin to rethink his oeuvre through the viewfinder of the film medium as he was equally as passionate about working within cinema

reality of war's sacrifices That approach also develops by using the literary analyses to critique and revise various prominent theories of sacrifice and war

The Errant Art of Moby-Dick William V. Spanos, 1995 In *The Errant Art of Moby Dick* one of America's most distinguished critics reexamines Melville's monumental novel and turns the occasion into a meditation on the history and implications of canon formation In *Moby Dick* a work virtually ignored and discredited at the time of its publication William V Spanos uncovers a text remarkably suited as a foundation for a New Americanist critique of the ideology based on Puritan origins that was codified in the canon established by Old Americanist critics from F O Matthiessen to Lionel Trilling But Spanos also shows with the novel still as his focus the limitations of this New Americanist discourse and its failure to escape the totalizing imperial perspective it finds in its predecessor Combining Heideggerian ontology with a sociopolitical perspective derived primarily from Foucault the reading of *Moby Dick* that forms the center of this book demonstrates that the traditional identification of Melville's novel as a romance renders it complicitous in the discourse of the Cold War At the same time Spanos shows how New Americanist criticism overlooks the degree to which *Moby Dick* anticipates not only America's self representation as the savior of the world against communism but also the emergent postmodern and anti imperial discourse deployed against such an image Spanos's critique reveals the extraordinary relevance of Melville's novel as a post Cold War text foreshadowing not only the self destructive end of the historical formation of the American cultural identity in the genocidal assault on Vietnam but also the reactionary labeling of the current era as the end of history This provocative and challenging study presents not only a new view of the development

of literary history in the United States but a devastating critique of the genealogy of ideology in the American cultural establishment **Mailer** Mary V.
