Activism And Social Change Activism And Social Change:

Women's Activism and Social Change Nancy A. Hewitt, 2018-08-06 In *Women's Activism and Social Change* Nancy A. Hewitt challenges the popular belief that the lives of antebellum women focused on their role in the private sphere of the family. Examining intense and well-documented reform movements in nineteenth-century Rochester, New York, Hewitt distinguishes three networks of women's activism: women from the wealthiest Rochester families who sought to ameliorate the lives of the poor; those from upwardly mobile families who influenced by evangelical revivalism campaigned to eradicate such social ills as slavery, vice, and intemperance; and those who combined limited economic resources with an agrarian Quaker tradition of communalism and religious democracy to advocate full racial and sexual equality.

Public Relations, Activism, and Social Change Kristin Demetrious, 2013 This book draws significant new meaning to the interrelationships of public relations and social change through a number of international case studies and rebuilds knowledge around alternative communicative practices that are ethical, sustainable, and effective. Demetrious offers a critical description of the dominant model of public relations used in the twentieth century, showing that PR was characterized as arrogant, unethical, and politically offensive in ways that have weakened its professional credibility. She offers a principled approach that avoids the contradictions and flawed coherences of essentialist public relations and instead represents an important ethical reorientation in the communicative fields.

Lived Experience, Lifelong Learning, Community Activism and Social Change Sharon Clancy, Iain Jones, 2024-06-03 This book identifies and celebrates the learning adult educators can gain from the numerous sites of community activism, learning, and social change that are currently taking place across the globe. While the relentless push of neoliberalism has struck at the heart of adult education provision in many countries, including that provided by universities, institutions of further education, international development agencies, NGOs, vocational training centres, and the local government sector, what can adult educators learn and what is being learnt when we turn to sites of community activism as a mechanism for broader social change? Drawing on empirical research as well as stories and blogs about social change and transformation from those participating in community activist struggles, this book features diverse contributions from adult education practitioners, theorists, and activist researchers who share community activist practices from around the world and provide insight into the ways these have contributed to social change and political transformation in different spaces and communities. Each chapter and blog in this collection relate to different dimensions of community democracy and dialogue and how this space has become one in which delimiting factors must constantly be fought. In these contributions, questions of critical pedagogy and voice and contested notions of power, place, and voice are lived, felt, and troubled in different national and international contexts. This book was originally published as a special issue of *Studies in the Education of Adults*.

goes behind the scenes to uncover how spoken word poetry and young people's participation in it contributes to a broader understanding of contemporary social justice activism including this generation's attention to the political importance of identity well being and love Drawing upon detailed observations and in depth interviews Chepp tells the story of a diverse group of young adults from Washington D C who use spoken word to create a more just and equitable world Outlining the contours of this approach she interrogates spoken word activism's emphasis on personal storytelling and truth the strategic uses of aesthetics and emotions to politically engage across difference and the significance of healing in sustainable movements for change Weaving together their poetry and personally told stories Chepp shows how poets tap into the beautiful emotional personal and therapeutic features of spoken word to empathically connect with others advance intersectional and systemic analyses of inequality and make social justice messages relatable across a diverse public By creating allies and forging connections based on friendship professional commitments lived experiences emotions artistic kinship and political views this activist approach is highly integrated into the everyday lives of its practitioners online and face to face Chepp argues that spoken word activism is a product of and a call to action against the neoliberal era in which poets have come of age characterized by widening structural inequalities and increasing economic and social vulnerability She illustrates how this deeply personal and intimate activist approach borrows from builds upon and diverges from previous social movement paradigms Spotlighting the complexity and mutual influence of modern day activism and the world in which it unfolds Speaking Truths contributes to our understanding of contemporary social change making and how neoliberalism has shaped this political generation's experiences with social injustice
