Managing Client Care: Assignment to Delegate to a Float Nurse

- The float nurse should be assigned to patients she has experience with similar client types to those patients.
- The assignment should take into account the level of familiarity the nurse has of the unit she is on.
- If the nurse feels that her assignment is unsafe she should speak to the charge nurse about her concerns.

School of Nursing, 2012 The purpose of this quantitative study was to determine if Assessment Technologies Institute s ATI comprehensive predictor accurately predicts student results on the National Council Licensure Examination for Registered Nurses NCLEX RN for graduates of an Associate Degree nurse program at a community college in the Northwestern part of North Carolina The study was also used to determine the feasibility of the School of Nursing SON continuing to purchase the

ATI standardized testing products for student use This study evaluated the comprehensive predictor scores and first time pass fail rates for graduates N 285 from 2007 to 2011 All data was analyzed using IBM Statistical Package for the Social Sciences SPSS version 20 software as well as a predictive accuracy spreadsheet provided by ATI to determine the overall predictive reliability The mean on the predictor is significantly different for those who passed versus those who failed which indicated that ATI s comprehensive predictor is predictive of success or failure on the NCLEX RN for graduates of the Associate Degree Nurse program at the college p 0 000

Early Identification of At-risk LPN-to-RN Students Lisa K. Hawthorne,2021 Nurse education programs are implementing standardized assessments without evaluating their effectiveness Graduates of associate degree nursing programs continue to be unsuccessful with licensure examinations despite standardized testing and stronger admission criteria This problem is also prevalent for LPN to RN education programs due to a lack of research on this group of graduates who by all accounts should be successful in nursing education based on their work experience and prior nursing education Findings of this quantitative non experimental descriptive correlational study are presented to determine the effectiveness of standardized testing from Assessment Technologies Institute ATI as it relates to identifying at risk LPN RN students enrolled in two mid western private colleges and predicting their success on the National Council Licensure Examination for Registered Nurses NCLEX RN The sample consisted of 182 students who took the ATI registered nursing RN comprehensive predictor assessment between November 2009 and December 2011 Demographic data and scores on the ATI RN Fundamentals Assessment composite nursing process and thinking scores were compared with performance on the ATI comprehensive predictor and NCLEX RN results Study findings indicate a statistically significant association between the standardized testing scores and pass rates on the NCLEX RN examination but limited relevance of student characteristics

Identifying Predictors of Success for the Computerized NCLEX-RN in Associate Degree Nursing Graduates Tina Marie Kline,2010 Failure of the NCLEX RN is a significant problem with a farther reaching impact than just the individual student and program of nursing Every student who is unsuccessful on the exam is one less registered nurse to provide patient care therefore increasing NCLEX RN pass rates is essential to addressing the ongoing nursing shortage The purpose of this study was to determine the relationship among nursing curriculum grade point average performance in the biological science courses performance in the theory portion of fundamentals and medical surgical nursing courses performance on the Assessment Technologies Institute RN comprehensive predictor examination and role transition setting and success on the NCLEX RN examination Approval was obtained from the governing institution and community college s internal review board to conduct a record review of the graduating nursing classes Logistical regression was then performed to identify significant predictors of NCLEX success including ACT and COMPASS reading scores biological science GPA performance in medical surgical

nursing courses and ATI comprehensive predictor performance Statistical analysis indicated that ACT COMPASS reading scores nursing curriculum and biological science GPA and ATI comprehensive predictor performance were significant predictors of NCLEX RN performance *Predicting Student Success* David Mark Foley, 2016 As the US population becomes more diverse schools of nursing are faced with the formidable challenge of graduating diverse groups of competent students who will pass the NCLEX RN and serve an equally diverse public in the safest manner possible Although institutions of higher learning have adopted plans to enhance diversity among nursing graduates tension is created between these initiatives and the academic rigor required by nursing education In particular schools of nursing in diverse urban metropolitan areas face unique challenges educating increasing number of men minorities and students for whom English is a second language ESL Stanton Salazar s 2011 Social Capital Framework indicates academic success is impacted by the amount of social capital students bring to the educational setting Nursing students from urban areas often bring less social capital thus prompting nurse educators to closely examine and revise pedagogical methods This study identified and analyzed the predictive power of demographic and academic variables on students success on the NCLEX RN at a large urban university s pre licensure nursing programs Linear logistic regression model results indicated GPA is an extraordinarily strong predictor However revised logistic regression models excluding GPA amplified the predictive power of the other variables including ESL status and ATITM Comprehensive Predictor Examination score ATITM emerged as the most robust predictor of success on the NCLEX RN demonstrating even a small increase in ATITM score significantly impacted students likelihood to pass the NCLEX RN Gender and minority status were not significant predictors of students success on the NCLEX RN Attrition rates for male minority and ESL students averaged twice those of females non minorities and native English speakers Recommendations to promote success for these students included opportunities to enhance social capital deeper investment in a holistic admissions process pedagogical innovations and full integration of ATITM formative and summative strategies into the nursing curriculum By promoting success for all students male minority and ESL scholars can be viewed not from a perspective of potential failure but rather from that of rich potential for contributions to the profession of nursing
