Donnelly a noted politician and writer from Minnesota was profoundly influenced by the intellectual milieu of the late 19th century particularly the rise of Darwinian thought and theories of ancient civilizations His extensive research combined with a personal obsession with the myths surrounding Atlantis informed his argument that myriad cultural parallels across the globe point to a singular advanced civilization This fervent belief was propelled further by his desire to challenge contemporary scientific orthodoxy and popularize a narrative that transcended the prevailing historical accounts Atlantis The Antediluvian World is highly recommended for readers intrigued by the intersections of history myth and archaeology Donnelly s compelling narrative invites readers to reconsider accepted historical paradigms and fuels the imagination about lost epochs Engaging and thought provoking this work is essential for those interested in the enduring allure of Atlantis and its impacts on our understanding of ancient civilizations *Atlantis: the Antediluvian World* Ignatius Donnelly, 2018-08-24

Fingerprints of the Gods proposes like Donnelly that civilizations in Egypt and the Americas had a common origin in a civilization lost to history although in Hancock's book the civilization was not located in the northern Atlantic.

Ignatius Loyola Donnelly (November 3, 1831 – January 1, 1901) was an American Congressman, populist writer, and amateur scientist. He is known primarily now for his fringe theories concerning Atlantis, Catastrophism, especially the idea of an ancient impact event affecting ancient civilizations, and Shakespearean authorship, which many modern historians consider to be pseudoscience and pseudohistory. Donnelly's work corresponds to the writings of late 19th and early 20th century figures such as Helena Blavatsky, Rudolf Steiner, and James Churchward.

Life and career

Donnelly was the son of Philip Carroll Donnelly, an Irish Catholic immigrant who had settled in Philadelphia, Pennsylvania. His sister was the writer Eleanor C. Donnelly. On June 29, 1826, Philip had married Catherine Gavin, a second generation American of Irish ancestry. After starting as a peddler, Philip studied medicine at the Philadelphia College of Medicine. He later contracted typhus from a patient and died at age 31, leaving his wife with five children. Catherine provided for her children by operating a pawn shop. Ignatius, her youngest son, was admitted to the prestigious Central High School, the second oldest public high school in the United States. There he studied under the presidency of John S. Hart, excelling primarily in literature. Donnelly decided to become a lawyer and became a clerk for Benjamin Brewster, who later became Attorney General of the United States. Donnelly was admitted to the bar in 1852. In 1855, he married Katherine McCaffrey, with whom he had three children. In 1855, he resigned his clerkship, entered politics, and participated in communal home building schemes. He quit the Catholic Church some time in the 1850s and thereafter was never active in any religious group. Donnelly moved to the Minnesota Territory in 1857 amidst rumors of financial scandal, and there he settled in Dakota County. He initiated a utopian community called Nininger City, together with several partners. However, the Panic of 1857 doomed the attempt at a cooperative farm and community, and left Donnelly deeply in debt. His wife Katherine died in 1894. In 1898, he married his secretary Marian Hanson.

Atlantis: the Antediluvian World (Fully Illustrated Version) Ignatius Donnelly, 2018-10-21. Fully Illustrated version with all the original maps and drawings. Before there was Graham Hancock or Robert Bauval, there was Ignatius Donnelly, whose theories on Atlantis, lost civilizations, and Catastrophism have long been considered to be pseudoscience. First published in 1882, *Atlantis: The Antediluvian World* was a sensation in its day and is an interesting read even today. Though many of the theories within its pages do not stand up well to modern scientific methods, recent discoveries at Göbekli Tepe and new evidence of a comet impact 13,000 years ago that may indeed have caused a worldwide flood may mean that Donnelly was at least partially right in his hypotheses. This work is not a cheap scan or the result of copying and pasting; it contains no missing pages, areas of blurred or missing text, photocopier's fingers, coffee stains, or other scanning artifacts. It has all of the original text reformatted in an easy-to-read format. Note that this work contains terms and language in common use in the 19th century that some people may find offensive.

Sloan,2019-10-17 Atlantis is or was a place described as containing an ideal and advanced society It was first described by the famous Greek philosopher Plato in 360 BC Before Christ Antediluvian is of or relating to the period before the flood of Noah as described in the Bible Nobody knows if Plato was describing a real place or if he was simply describing an ideal but imaginary place According to Plato Atlantis was an island destroyed 11 600 years ago by a giant tsunami that wiped away the entire population except for a few who managed to survive and tell what had happened It has long been assumed to be just a story to illustrate what an ideal society would be like in the Republic of Plato However now videos and websites have appeared on the Internet said to show pictures of real under sea buildings and statues in Atlantis and that Atlantis is a real place Atlantis is said to be owned by the Greek God Atlas who was given the task of holding up the world and said to be located in the Atlantic Ocean Atlantis is named after the Atlantic Ocean and after the God Atlas Atlanta a City in Georgia is also named after Atlantis Atlantis is also the name of a swanky resort that advertises constantly on the network news and features beautiful young women waiting to serve you unless you are able to bring one yourself The Atlantic Ocean is derived from Sea of Atlas In Ancient Greek Plato s Timaeus dialogue also mentions meaning Atlas s Island giving rise to the English derivative Atlantis Although stories about Atlantis have been around for more than two thousand years it is only within the last 130 years that interest in Atlantis has been renewed by this book This book finds similarities between the cultures of Europe and Egypt and the cultures of South America A look at the map shows that the bulge of West Africa fits into the Caribbean Sea and the Gulf of Mexico like the pieces of a jigsaw puzzle We now know that this is not a coincidence Africa was in fact attached to South America but that was more than a hundred million years ago before the Continental Shift caused them to drift apart and before humans arrived Doggerland is an area of land now submerged beneath the southern North Sea that connected Britain to continental Europe It was flooded by rising sea levels around 6500 6200 BC Geological surveys have suggested that it stretched from Britain s east coast to the Netherlands and the western coasts of Germany and the peninsula of Jutland It was probably a rich habitat with human habitation in the Mesolithic period although rising sea levels gradually reduced it to low lying islands before its final submergence possibly following a tsunami The archaeological potential of the area was first identified in the early 20th century It explains the linguistic similarity between the Dutch and the English Languages With modern discoveries by science and geology many of the theories of Ignatius Donnelly are now discredited However some of his theories have been proven to be true This book has been reprinted more than a dozen times by different publishers However some of these reprints are deeply flawed Entire sections are left out Pages are re organized or re written Many of these reprints books and websites cannot be trusted Is this real science or Quack pseudo science
