Banking and Business in the Roman World Jean Andreau, 1999-10-14 In the first century BC lending and borrowing by the senators was the talk of Rome and even provoked political crises During this same period the state tax farmers were handling enormous sums and exploiting the provinces of the Empire Until now no book has presented a synthetic view of Roman banking and financial life as a whole from the time of the appearance of the first bankers shops in the Forum between 318 and 310 BC down to the end of the Principate in AD 284 Professor Andreau writes of the business deals of the elite and the professional bankers and also of the interventions of the state To what extent did the spirit of profit and enterprise predominate over the traditional values of the city of Rome And what economic role did these financiers play How should we compare that role to that of their counterparts in later periods

Lee, 2020-09-17 Thematic treatment of the broader impact of warfare in the Roman world integrating Late Antiquity alongside the Republic and Principate *Law and Crime in the Roman World* Jill Harries, 2007-11-15 What was crime in ancient Rome Was it defined by law or social attitudes How did damage to the individual differ from offences against the community as a whole This book explores competing legal and extra legal discourses in a number of areas including theft official malpractice treason sexual misconduct crimes of violence homicide magic and perceptions of deviance It argues that court practice was responsive to social change despite the ingrained conservatism of the legal tradition and that judges and litigants were in part responsible for the harsher operation of justice in Late Antiquity Consideration is also given to how attitudes to crime were shaped not only by legal experts but also by the rhetorical education and practices of advocates and by popular and even elite indifference to the finer points of law
