reveals that two waves of settlement through the Appalachians created two distinct speech types Settlers coming into Georgia and other parts of the Upper South through the Shenandoah Valley and on to the western side of the mountain range had a Pennsylvania influenced dialect and were typically small farmers Those who settled the Deep South in the rich lowlands and plateaus tended to be plantation farmers from Virginia and the Carolinas who retained the vocabulary and speech patterns of coastal areas With these revealing findings the LAMSAS represents a benchmark study of the English language and this handbook is an indispensable guide to its riches
