Schmid, 2023-07-24 This handbook brings together 42 contributions by leading narratologists devoted to the study of narrative devices in European literatures from antiquity to the present Each entry examines the use of a specific narrative device in one or two national literatures across the ages whether in successive or distant periods of time Through the analysis of representative texts in a range of European languages the authors compellingly trace the continuities and evolution of storytelling devices as well as their culture specific manifestations In response to Monika Fludernik's 2003 call for a diachronization of narratology this new handbook complements existing synchronic approaches that tend to be ahistorical in their outlook and departs from postclassical narratologies that often prioritize thematic and ideological concerns A new direction in narrative theory diachronic narratology explores previously overlooked questions from the evolution of free indirect speech from the Middle Ages to the present to how changes in narrative sequence encoded the shift from a sacred to a secular worldview in early modern Romance literatures An invaluable new resource for literary theorists historians comparatists discourse analysts and linguists      **Homer's Iliad and the Trojan War** Jan Haywood, Naoise Mac

Sweeney, 2019-09-19 In this new volume Jan Haywood and Naoise Mac Sweeney investigate the position of Homer's Iliad within the wider Trojan War tradition through a series of detailed case studies From ancient Mesopotamia to twenty first century America these examples are drawn from a range of historical and cultural contexts and from Athenian pot paintings to twelfth century German scholarship they engage with a range of different media and genres Inspired by the dialogues inherent in the process of reception the book adopts a dialogic structure In each chapter paired essays by Haywood and Mac Sweeney offer contrasting authorial voices addressing a single theme thereby drawing out connections and dissonances between a diverse suite of classical and post classical Iliadic receptions The resulting book offers new insights both into individual instances of Iliadic reception in particular historical contexts but also into the workings of a complex story tradition The centrality of the Iliad within the wider Trojan War tradition is shown to be a function of conscious engagement not only with Iliadic content but also with Iliadic status and the iconic idea of the Homeric      Xenophon's ›Anabasis‹ and its Reception Tim Rood, Melina Tamiolaki, 2022-10-24 This volume constitutes the first large scale collaborative reflection on

exploration of hitherto overlooked recurrent themes Based on new approaches and scholarly trends it focuses on topics such as the concept of friendship the speeches of characters other than Xenophon the suffering of the human body the role of rumour and misrepresentation and the depiction of emotions The third section offers a more thorough investigation of the manifold reception of this work in Antiquity Byzantium Renaissance modern period in cinema studies and illustrations Finally in acknowledgement of the Anabasis long history as a pedagogical text the volume contains an envoi on the importance and benefits of teaching Xenophon and the Anabasis more specifically

**The Politics of Viewing in Xenophon's Historical Narratives** Rosie Harman, 2023-01-12 This book considers cultural identity and power relations in early fourth century BCE Greece through a reading of Xenophon's historical narratives the Hellenica Anabasis and Cyropaedia These texts depict conflicts between Greek states conflicts between Greeks and non Greeks and relations between the elite individual and society In all three texts politically significant moments are imagined in visual terms We witness spectacles of Spartan military victory vistas of Asian landscape or displays of Persian imperial pomp and historical protagonists are presented as spectators viewing and responding to events Through this visual form of narration the reader is encouraged imaginatively to place themselves in the position of the historical protagonists In viewing events from different perspectives and therefore occupying multiple often conflicting political positions the reader not only experiences the problems faced by historical actors but becomes engaged in the political conflicts acted out in the narratives The reader is prompted to take pleasure in the sight of Panhellenic achievement but also to witness the divisions and conflicts between Greeks on class and ethnic lines Similarly the reader is invited to identify with spectacular Greek and non Greek figures of power as emblems of Greek imperial potential but also to see through the eyes of those communities subjugated at their hands The depiction of spectacles and spectators draws the reader into an active participation in the ideological contradictions of their time in a period when Panhellenic aspiration co existed with hegemonic competition between Greek states and when Greeks could be both beneficiaries and victims of imperialism

Rationalism and the Politics of Europe Ann Ward,2018-01-23 Dramatic changes have occurred in Europe in the past quarter century The fall of communism and the expansion of liberal democracy together with the desire to project a new Europa that is united peaceful and prosperous into the future illustrate that political philosophy is what grounds European political discourse and identity Thus an understanding of Europe s political past and potential future directs us to the question What is political philosophy An exploration of the question of political philosophy points us back to Socrates widely regarded as the first political philosopher or the first philosopher to make human beings central to philosophic inquiry Scholars such as Thomas Pangle suggest that a revival of the study of Socratic political philosophy will revive serious consideration of the questions of justice or how one ought to live and demonstrate that classical rationalism is the essential dialectical partner

and interrogator of the political theology of Scripture scripture s Classical rationalism in this context is understood as a necessary alternative to modern liberalism inadequate to the task of taking questions of justice seriously as it insists on regarding all religious claims and understandings of virtue as private preferences rather than definitive of the public sphere and contemporary postmodernism which has abandoned rationalism altogether by rejecting any truth claims not understood as relative This volume explores Socratic rationalism the major alternatives to it in the history of political philosophy the potential impact of returning to it in contemporary times and related themes It takes a multifaceted approach with contributions from scholars in the fields of philosophy and political science
