**absence of clutter** Paul Stephens,2020-03-24 An exploration of minimal writing texts generally shorter than a sentence as complex powerful literary and visual works In the 1960s and 70s minimal and conceptual artists stripped language down to its most basic components the word and the letter Barbara Kruger Jenny Holzer Carl Andre Lawrence Weiner and others built lucrative careers from text based art Meanwhile poets and writers created works of minimal writing visual texts generally shorter than a sentence One poem by Aram Saroyan reads in its entirety eyeye In *absence of clutter* Paul Stephens offers the first comprehensive account of minimal writing arguing that

it is equal in complexity and power to better known more commercial text based art Minimal writing Stephens writes can be beguilingly simple on the surface but can also offer iterative reading experiences on multiple levels from the fleeting to the ponderous absence of clutter for example the entire text of a poem by Robert Grenier is both expressive and self descriptive Stephens first sets out a theoretical framework for reading and viewing minimal writing and then offers close readings of works of minimal writing by Saroyan Grenier Norman Pritchard Natalie Czech and others He reverse engineers recent works by Jen Bervin Craig Dworkin and Christian B k that draw on molecular biology and explores print on demand books by Holly Melgard code poetry by Nick Montfort Twitter based work by Allison Parrish and the use of Instagram by Hans Ulrich Obrist and Saroyan Text it seems is becoming ever more prevalent in visual art meanwhile poems are getting shorter When reading has become scanning a screen and writing tapping out a text absence of clutter invites us to reflect on how we read see and pay attention Speaking Out of Turn Stephanie Sparling Williams,2021-08-24

Speaking Out of Turn is the first monograph dedicated to the forty year oeuvre of feminist conceptual artist Lorraine O Grady Examining O Grady s use of language both written and spoken Stephanie Sparling Williams charts the artist s strategic use of direct address the dialectic posture her art takes in relationship to its viewers to trouble the field of vision and claim a voice in the late 1970s through the 1990s when her voice was seen as out of turn in the art world Speaking Out of Turn situates O Grady s significant contributions within the history of American conceptualism and performance art while also attending to the work s heightened visibility in the contemporary moment revealing both the marginalization of O Grady in the past and an urgent need to revisit her art in the present **ArtQuake** Susie Hodge,2022-01-25
