## **Interests Of State The Politics Of Language Multiculturalism And Feminism In Canada:**

*Interests of State* Leslie A. Pal, 1993-05-20 Leslie Pal explores a phenomenon unique to Canadian politics the direct funding of advocacy groups by the government and makes a significant contribution to the debate on the role of the state in shaping society Focusing on groups concerned with the official languages multiculturalism and women s issues he argues that funding was not neutral but was driven by state interests and particularly by a national unity agenda Interests of State Leslie Alexander Pal, Leslie A. Pal, 1995 An exploration of the direct funding of advocacy groups by the government Focusing on groups concerned with the official languages multiculturalism and women s issues Leslie Pal argues that funding is not neutral but is driven by state interests and by a national unity agenda *Language and Politics in the United States and Canada* Thomas K. Ricento, Barbara Burnaby, 1998-05 Explores parallel and divergent developments in language policy and language rights in the U S and Canada especially the past 4 decades as a basis for reflection on what can be learned from one country s experience by the other *Constitutional Politics in Canada and the United States* Stephen L. Newman, 2012-02-01 The Canadian constitutional reforms of 1982 which included a Charter of Rights and Freedoms analogous to the American Bill of Rights brought about a convergence with American constitutional law As in the U S Canadian courts have shown themselves highly protective of individual rights and they have not been shy about assuming a leading and sometimes controversial political role in striking down legislation In clear and easy to understand language the contributors not only chart but also explore the reasons for areas of similarity and difference in the constitutional politics of Canada and the United States **Women and Political Representation in Canada** Caroline Andrew, Manon Tremblay, 1998 This collection of essays explores the often antagonistic relationship between women and political life in Canada While women make up little over half of the total population in Canada they are in many ways conspicuous by their absence from the Canadian political scene Published in English *Canadian Language Policies in Comparative Perspective* Michael A. Morris, 2010 A systematic examination of language policies in Canada based on domestic and international comparisons *The Myth of the Sacred* Donald E. Abelson, Patrick James, Michael Lusztig, 2002 In this collection the authors challenge the myth of the sacred the idea that certain aspects of the constitutional process judicial political behaviour interest group politics and centralization of power are untouchable politically They suggest that certain actors and institutions have contributed to a myth about the normative basis of Canadian constitutional politics a myth perpetuated through the popular media as well as much of the scholarly literature Such actors often disguise their overtly political behavior with a cloak of impartiality presenting their actions as furthering the public good and therefore immune to challenge The Myth of the Sacred seeks to challenge this ideal At its core this myth embodies the Trudeauian ideal of Canadian society one that features a constitution that empowers impartial judges at the expense of politically motivated legislators one that allows each individual to enjoy a uniform range of rights freedoms and means of belonging to the larger

Canadian society and one that seeks to ensure the primacy of the national government rather than the provincial Trudeau called his vision the Just Society But justice is an illusive and amorphous concept Defining it much less institutionalizing it is fraught with risk In modern liberal democracies justice is typically understood as the product of some mix of liberty and equality process and substance with the amount of each component varying according to taste It is not unusual for political actors to seek to institutionalize their own formulas for justice but it is also not reasonable to expect these formulas to go unchallenged Such a challenge represents the dominant theme of this volume Contributors include Donald E Abelson Tom Flanagan University of Calgary Patrick James James B Kelly Brock University Michael Lusztig Christopher P Manfredi McGill University Hudson Meadwell McGill University Anthony A Peacock Utah State University Mark Rush Washington and Lee University and Shannon I Smithey Kent State University      **How Ottawa Spends, 1993-94** Susan D. Phillips, 1993

**Aboriginal Rights and Self-Government** Curtis Cook, Juan David Lindau, 2000 The essays address problems of constructing new political arrangements practical questions about the viability of multiple governments within one political system and epistemological questions about recognizing and understanding the other BOOK JACKET      **A Civil Society?** Miriam Smith, 2005-04-01 Focusing on the traditional state centred arenas of group and social movement influence such as Parliament elections the bureaucracy and the courts this book argues that the terrain of group politics in Canada has been restructured by the transition from the Keynesian welfare state era to the era of neoliberal globalization It surveys the main approaches to the study of collective action in the Canadian context including theories such as pluralism neo Marxism historical institutionalism and rational choice theory The core of the analysis draws on political economy and historical institutionalism to explore the ways in which Canadian political institutions are in the midst of a fundamental transformation brought on by the shift to neoliberalism Miriam Smith argues that political institutional changes in federalism and intergovernmental relations the role of the courts in the wake of the Charter the decline of the legislature the concentration of power at the centre the relative displacement of the public service the regionalization of the brokerage party system and the rise of professional lobbyists have altered the scope for group politics in Canada The restructuring of Canadian politics has gone beyond the level of policy change reshaping the central institutions of the state The core political institutions of the Canadian state are in the midst of their own restructuring process one that will make a less democratic Canada

*Rebuilding Canadian Party Politics* R. Kenneth Carty, William Cross, Lisa Young, 2007-11 This book is about the collapse of Canadian party politics in the early 1990s about the end of a party system that had governed Canada s national politics for several decades and about the ongoing struggle to build its successor      Civil Religion in Political Thought Ronald L. Weed, John von Heyking, 2010-03 The essays in this volume blend historical and philosophical reflection with concern for contemporary political problems They show that the causes and motivations of civil religion are a permanent fixture of the human condition though some of its manifestations and proximate causes have shifted in an age of multiculturalism religious

toleration and secularization      *Policy Change, Courts, and the Canadian Constitution* Emmett Macfarlane, 2018-01-01

*Policy Change Courts and the Canadian Constitution* aims to further our understanding of judicial policy impact and the role of the courts in shaping policy change Bringing together a group of political scientists and legal scholars this volume delves into a diverse set of policy areas including health care issues the regulation of elections criminal justice policy minority language education citizenship refugee policy human rights legislation and Indigenous policy While much of the public law and judicial politics literatures focus on the impact of the constitution and the judicial role scholarship on courts that makes policy change its central lens of analysis is surprisingly rare Multidisciplinary in its approach to examining policy issues this book focuses on specific cases or policy issues through a wide ranging set of approaches including the use of interview data policy analysis historical and interpretive analysis and jurisprudential analysis      *Constraining the Court* James B. Kelly, 2024-05-01

When the Supreme Court of Canada makes a decision that invalidates a statute it creates a constitutional moment But does that have a direct and observable impact on public policy *Constraining the Court* explores what happens when a statute involving a significant public policy issue French language rights in Quebec supervised consumption sites abortion or medical assistance in dying is declared unconstitutional James B Kelly examines the conditions under which Parliament or provincial territorial legislatures attempt to contain the policy impact of judicial invalidation and engage in non compliance without invoking the notwithstanding clause He considers the importance of the issue the unpopularity of a judicial decision the limited reach of a negative rights instrument such as the Charter the context of federalism and the mixture of public and private action behind any legislative response While the Supreme Court s importance cannot be denied this rigorous analysis convincingly concludes that a judicial decision does not necessarily determine a policy outcome

provides a concise and accessible introduction to the principles and elements of policy design in contemporary governance. It examines in detail the range of substantive and procedural policy instruments that together comprise the toolbox from which governments choose tools to resolve policy problems and the principles and practices that lead to their use. Guiding readers through the study of the many different kinds of instruments used by governments in carrying out their tasks, adapting to and altering their environments, this book considers the principles and practices behind the selection and use of specific types of instruments in contemporary government and arrangements of policy tools, esp. procedural tools and policy portfolios. Evaluates in detail the merits, demerits, and rationales for the use of specific organization, regulatory, financial, and information-based tools and the trends visible in their use. Examines key issues such as policy success and failure and the role of design in it, policy volatility and risk management through policy design, how behavioural research can contribute to better policy designs, and the micro-calibrations of policies and their importance in designs and outcomes. Addresses the issues not only surrounding individual tools but also concerning the evolution and development of instrument mixes, their relationship to policy styles, and the challenges involved in their re-design, as well as the distinction between design and non-design. Providing a comprehensive overview of this essential component of modern governance and featuring helpful definitions of key concepts, and further reading, this book is essential reading for all students of public policy administration and management.

**The Moral Economies of Ethnic and Nationalist Claims** Bruce J. Berman, André Laliberté, Stephen J. Larin, 2016-09-15 At a time when states, armed insurgent movements, and ethnic and nationalist political parties make claims based on the defence of communal interests and political and religious ideologies with often deadly consequences, it is important to understand the discourses and actions that are used to legitimize these claims. This book argues that competing moral economies—the beliefs and practices that normatively regulate and legitimize the distribution of wealth, power, and status in a society—play an important role in ethnic and nationalist conflict. Bringing together international experts on the politics of ethnicity and nationalism, this final volume in the prestigious EDG series investigates how moral economies have been challenged in identity-based communities in ways that precipitate or exacerbate conflicts. The combination of theoretical chapters and case studies ranging from Africa and Asia to North America provides compelling evidence for the value of moral economy analysis in understanding problems associated with ethnic and nationalist mobilization and conflict. **Group**

**Politics and Social Movements in Canada** Miriam Smith, 2014-01-01 **Group Politics and Social Movements in Canada** Second Edition updates and expands its exploration of a wide range of organized group and social movement activity in Canadian politics. Many other areas of collective activity are also included: the Occupy movement and anti-poverty organizing, ethnocultural political mobilization, disability, lesbian and gay politics, feminism, farmers and organized interests in agriculture, Christian evangelical groups, environment and health movements. Contributors to the collection employ a number of theoretical perspectives from political

science and sociology to describe the evolution of organized groups and movements and to evaluate successes in exercising influence on Canadian politics Each chapter provides an overview of the group or movement along with an account of its main networks and organizations strategies goals successes and failures      **Equity & Community** Institute for Research on Public Policy,1993 This book The Author addresses the following issues how and to what effect judicial action has changed since the adoption of the charter both at the national level and in Quebec howjudges seek to reconcile particular groups claims with the sense of community integral to a free and democratic society the implications of these and other developments for interest group advocacy particular within parliament and means of strengthening the voice of under represented groups within elected institutions      **Jobs and Justice** Carmela Patrias,2012-01-30 Despite acute labour shortages during the Second World War Canadian employers with the complicity of state officials discriminated against workers of African Asian and Eastern and Southern European origin excluding them from both white collar and skilled jobs Jobs and Justice argues that while the war intensified hostility and suspicion toward minority workers the urgent need for their contributions and the egalitarian rhetoric used to mobilize the war effort also created an opportunity for minority activists and their English Canadian allies to challenge discrimination Juxtaposing a discussion of state policy with ideas of race and citizenship in Canadian civil society Carmela K Patrias shows how minority activists were able to bring national attention to racist employment discrimination and obtain official condemnation of such discrimination Extensively researched and engagingly written Jobs and Justice offers a new perspective on the Second World War the racist dimensions of state policy and the origins of human rights campaigns in Canada
