The background of the cover features two overlapping, rectangular metal plates. The plates are covered in a dense, repeating pattern of embossed keys of various shapes and sizes. The lighting is dramatic, coming from the upper right, which creates strong highlights on the raised surfaces of the keys and deep shadows in the recessed areas, giving the image a three-dimensional, textured appearance. The overall color palette is monochromatic, consisting of various shades of gray and black.

## Key Of The Mysteries:

The Key of the Mysteries Eliphas Levi, 2018-01-26 In the Introduction Aleister Crowley who translated the book called it the masterpiece of Levi The author Eliphas Levi reveals how to use the most hidden of occult secrets to reach the highest order of the human mind The author has determined that the key to the world s mysteries resides on a higher plane that can only be accessed by reconciling the contradictions found in the dualism of reality The methods used to accomplish this are explained as being this key One may discover in this book the absolute knowledge of good and evil why alchemy is the daughter of the Qabalah secrets of life and death the astral world and the deeper mysteries of religion including the Christian Cross It also covers the use of Spiritualism the Tarot mesmerism mediumship magnetic powers and various forms of magic that may be used to invoke either angels or demons Eliphas Levi is legendary in the field of the occult transcendental magic and the hidden world If this book is indeed his masterpiece it should leave no question in the minds of readers regarding its ability to live up to its title the key of the mysteries *The Key Of The Mysteries* Eliphas Levi, 1959 This volume represents the high water mark of the thought of Eliphas Levi It may be regarded as written by him as his Thesis for the Grade of Exempt Adept just as his Ritual and Dogma was his Thesis for the grade of a Major Adept He is in fact no longer talking of things as if their sense was fixed and universal He is beginning to see something of the contradiction inherent in the nature of things or at any rate he constantly illustrates the fact that the planes are to be kept separate for practical purposes although in the final analysis they turn out to be one This and the extraordinarily subtle and delicate irony of which Eliphas Levi is one of the greatest masters that has ever lived have baffled the pedantry and stupidity of such commentators as Waite
