American Autopsy Michael M. Baden, 2023-01-17 A revealing history of covering up the true causes of deaths of BIPOC in custody from the forensic pathologist whose work changed the course of the George Floyd Eric Garner and Michael Brown cases Dr Michael Baden has been involved in some of the most high profile civil rights and police brutality cases in US history from the government s 1976 re investigation of the assassination of Martin Luther King Jr to the 2014 death of Michael Brown whose case sparked the initial Ferguson protests that grew into the Black Lives Matter movement The playbook hasn t changed since 1979 when Dr Baden was demoted from his job as New York City s Chief Medical Examiner after ruling that the death of a Black man in police custody was a homicide So in 2020 when the Floyd family wary of the same system that oversaw George Floyd s death needed a second opinion Dr Baden is who they called In these pages Dr Baden chronicles his six decades on the front lines of the fight for accountability within the legal system including the long history of medical examiners of using a controversial syndrome called excited delirium a term that shows up in the pathology report for George Floyd to explain away the deaths of BIPOC restrained by police In the process he brings to life the political issues that go on in the wake of often unrecorded fatal police encounters and the standoff between law enforcement and

Toxicological Evaluation of Materials Associated with Spacecraft Kenneth C. Back, 1966

The Air Force has pursued research in areas of ground support and space cabin toxicology for the past 5 years Comprehensive treatment of toxicological problems in both areas has revealed the necessity to define human tolerance limits to propellants and other toxic materials for various durations of exposure Hence an integrated input of propellant and space cabin material toxicology provides the basis for selection of habitable cabin atmospheres and materials selection criteria Since such selection procedures are based on both biological and engineering considerations one cannot disregard the materials selection aspect or evaluate closed system toxicology without consideration of source The toxic materials in space system atmospheres are determined primarily by the qualitative and quantitative composition of space cabin equipment and the contribution of contaminants by the crew Materials selection and analytical studies on gas off products are key considerations in controlling toxic contaminants in a space cabin Methods are described to determine the composition of cabin materials gas off products and to biologically test these compounds for their toxicological effects An attempt is made to correlate the roles of the materials analytical chemist and the toxicologist as a working team to provide meaningful and useful materials selection criteria

Lost Souls Penny de Byl, 2014-06-10 QUEENSLAND Australia Author Penny de Byl shares a thrilling story that combines the mystery of a crime and police procedural with science fiction Lost Souls follows humankind's fledgling endeavors to colonize space but unfolds into the near future where science looks to religious tenets and beliefs when unethical medical practices lead to a series of baffling deaths The story unfolds along two parallel narratives The first tracks a police team investigating a series of bizarre deaths in which people are dropping dead with no apparent explanation The second focuses on a group of researchers based in Antarctica working toward developing technologies that will one day assist mankind to colonize space These two worlds collide when the detectives and scientists become reliant on what is understood of religion and spirituality to solve the cases of mysterious deaths With contemporary science and technological fact woven into the story de Byl treats readers to an engaging journey of issues and solutions that seek to take humankind beyond earth

Intriguing Lost Souls builds a fascination for the science and technology that is shaping the world and the collective efforts that will be required of all nations to see humanity populate the cosmos In a future dependent on both old and new practices this original novel demonstrates there will always be a place for both science and spirituality in our culture You Own Me
