Resource-Based and Evolutionary Theories of the Firm Cynthia A. Montgomery, 1995-04-30 A look at the field of strategic management exploring the theories of the running of the firm Governing the Firm Gregory K. Dow, 2003-02-17 This book provides case studies of worker controlled firms and surveys available evidence on their behavior The Origin of the Capitalist Firm Weiying Zhang, 2017-08-13 The book addresses the entrepreneurial origin of the capitalist firm and its asymmetric contractual relationships between capitalists workers managers and entrepreneurs and explains the origin of the firm by focusing on entrepreneurship A hidden action model shows how assigning residual claim to entrepreneurs can provide a better overall incentive a hidden information model demonstrates that capitalists are given priority and have authority to select the management because capital can signal entrepreneurial ability and a general equilibrium entrepreneurial model shows that the equilibrium relationships between different members of the firm depend on the joint distribution of ability wealth and risk attitudes in the population Overall the book reveals that the capitalist firm is more efficient not only because it provides better incentives but also because it ensures that the most entrepreneurial people control the firm **Starting a Solo Law Firm 2021 Edition** Attorney Robert Schaller, 2021-01-14 Attorney Robert Schaller and the Schaller Law Firm offer young lawyers in Starting a Law Firm in 2020 2021 a must have desk reference book for building a law firm Lawyers should invest in their future Young lawyers worked hard in college and again in law school Now it is time to reap the rewards of the intensive legal training Earn the profits deserved Develop pride and earn respect from your peers Any lawyer who possesses a heartfelt desire to build a respected legal career along with the vision and drive to succeed should read and embrace the steps set forth in this book This book is dedicated to the young lawyers who are unfulfilled working as associates for other lawyers or who recently graduated from law school with the courage to hang out a shingle and start their own law firm This book provides concrete guidance about issues the author wished someone had taught him before he started his own law firm Some lawyers have the courage to open a solo practice law firm Other lawyers start a law firm with one or two other lawyers they know and trust There is strength in numbers It is appealing to young lawyers in particular to have a law school classmate or fellow associate nearby for support Others establish an affiliation with an existing firm Sometimes a lawyer needs another lawyer to brainstorm and bounce ideas around Deciding whether to start a law firm is a tough decision You gain the freedom described above but you lose the security of working for an established firm as an associate But is that freedom In the short run a young lawyer likes the security of knowing a paycheck is coming twice a month But all private practice lawyers ultimately realize that they eat what they kill Therefore the early shelter and protection offered by an established firm is lost after a few years when the developing lawyer is required to either leave the firm or develop a pool of clients that generate sufficient profits for the firm to justify the lawyer s salary In essence the lawyer has to develop the lawyer s own profit center or the lawyer s own solo firm within the firm Either way the lawyer has
