documentaries Showcase other people s genealogy tools **Legacy** Horace Cheeves,Denise Nicole Cheeves,2004 Legacy is about loss of inheritance and what we can do to reclaim it The introduction summarizes the psychological tyranny inflicted on Africans and their descendants over the course of enslavement and Jim Crow Legacy brings the past into the present with the story of Jeff Carter a Black man born during slavery who by 1916 acquired over 800 acres of mineral rich land in the Middle District of Georgia In this particular region a mineral known as chalk to the locals has produced a multi billion dollar foreign owned and operated industry Kaolin as it is officially known is predominately used in the paper and paint industries National Geographic is about 30% kaolin but is also used as a filler in ceramics cosmetics medicine rubber toothpaste etc The majority of the mineral laden land is owned by Black farmers who have seen very little if any of the profits garnered from their land Ninety nine 99 year mineral leases and outright theft have kept these farmers from reaping any amount of the wealth The heirs of Jeff Carter are one such family who were brutally evicted from their 800 acre estate in 1950 In 1980 after many failed attempts to reclaim their estate they were solicited by kaolin industry agents and attorneys who represented the family who stole their land The heirs of Jeff Carter are not unique in their story of land loss The quantity of land that Black farmers have lost in the last one hundred years alone is staggering One of the most detrimental legacies of enslavement and Jim Crow

is the challenge of passing an inheritance on to our children As a result subsequent generations have to reinvent the wheel because they have neither the business nor the finances to pick up where there ancestors left off In recent years a settlement was to be made to the descendants of the Rosewood massacre in Florida but each alleged descendant was required to prove their ancestry For this reason we encourage all people of color to research their family s genealogy We dedicate an entire chapter to beginning this process Uncovering our family history is a pivotal step in healing from centuries of psychological economic and physical rape If for no other reason our children should know something about the ancestors they are a legacy of

The Connected Home: The Future of Domestic Life Richard Harper,2012-01-11 The title of this new book The Connected Home reflects the move away from the idea that smart homes would alter the lives of those living in them by providing technologies to take over tasks that were previously the responsibility of the householder such as managing entertainment education and even eating Up until around 10 years ago this view was commonplace but time has shown that the technologies to support a smart home have not developed in such a way as to support this premise Instead what people do in their homes has moved the concept of a smart home into that of the

connected home The rise of on line games technologies video connections via Skype social networking internet browsing etc are now an integral part of the home environment and have had a significant effect on the home The contributors to this exciting new book consider and discuss the effects and ramifications of the connected home from a variety of viewpoints an examination of the take up of personal computers and the Internet in domestic situations an analysis of the changing intersection of technology and human habits in the connected home the impact of gaming texting e book readers tablets and other devices and their effect on the social conditions of a household the relationship between digital messaging applications and real geography and an overview of how sensing technologies for the smart home might evolve lightweight medical technologies for example The book culminates by addressing unfinished ambitions from the smart home agenda the factors that have prevented their realisation and addresses the need for extending research into the area
