Advanced Database Indexing Yannis Manolopoulos,Yannis Theodoridis,Vassilis Tsotras,2012-09-07 Advanced Database Indexing begins by introducing basic material on storage media including magnetic disks RAID systems and tertiary storage such as optical disk and tapes Typical access methods e g B trees dynamic hash files and secondary key retrieval are also introduced The remainder of the book discusses recent advances in indexing and access methods for particular database applications More specifically issues such as external sorting file structures for intervals temporal access methods spatial and spatio temporal indexing image and multimedia indexing perfect external hashing methods parallel access methods concurrency issues in indexing and parallel external sorting are presented for the first time in a single book Advanced Database Indexing is an excellent reference for database professionals and may be used as a text for advanced courses on the topic

Indexing Techniques for Advanced Database Systems Elisa Bertino,Beng Chin Ooi,Ron Sacks-Davis,Kian-Lee Tan,Justin Zobel,Boris Shidlovsky,Daniele Andronico,2012-12-06 Recent years have seen an explosive growth in the use of new database applications such as CAD CAM systems spatial information systems and multimedia information systems The needs of these applications are far more complex than traditional business applications They call for support of objects with complex data types such as images and spatial objects and for support of objects with wildly varying numbers of index terms such as documents Traditional indexing techniques such as the B tree and its variants do not efficiently support these applications and so new indexing mechanisms have been developed As a result of the demand for database support for new applications there has been a proliferation of new indexing techniques The need for a book addressing indexing problems in advanced applications is evident For practitioners and database and application developers this book explains best practice guiding the selection of appropriate indexes for each application For researchers this book provides a foundation for the development of new and more robust indexes For newcomers this book is an overview of the wide range of advanced indexing techniques Indexing Techniques for Advanced Database Systems is suitable as a secondary text for a graduate level course on indexing techniques and as a reference for researchers and practitioners in industry

DATA WAREHOUSING STRATEGIES: BUILDING SCALABLE AND HIGH-PERFORMANCE DATA STORAGE
SOLUTIONS** HARI GUPTA VAIDHEYAR RAMAN BALASUBRAMANIAN KARTHIK VENKATESAN RAGHAV

AGARWAL,2024-12-07 In the ever evolving landscape of the modern world the synergy between technology and data management has become a cornerstone of innovation and progress This book Advanced Data Warehousing Strategies Building Scalable and High Performance Data Storage Solutions is conceived to bridge the gap between emerging technological advancements in data warehousing and their strategic application in building resilient and scalable storage solutions Our objective is to equip readers with the tools and insights necessary to excel in this dynamic and crucial

intersection of fields This book is structured to provide a comprehensive exploration of the methodologies and strategies that define the innovation of data warehousing technologies particularly focusing on techniques for scalability and high performance From foundational principles to advanced applications we delve into the critical aspects that drive successful innovation in data storage and processing We have made a concerted effort to present complex concepts in a clear and accessible manner making this work suitable for a diverse audience including students data engineers architects and industry professionals In authoring this book we have drawn upon the latest research and best practices to ensure that readers not only gain a robust theoretical understanding but also acquire practical skills that can be applied in real world data warehousing scenarios The chapters are designed to strike a balance between depth and breadth covering topics ranging from data warehousing fundamentals and storage optimization techniques to the strategic management of data in modern organizations Additionally we emphasize the importance of performance tuning and scalability dedicating sections to designing architectures that are efficient reliable and capable of meeting the demands of big data environments The inspiration for this book arises from a recognition of the crucial role that advanced data warehousing solutions play in shaping the future of data driven decision making We are profoundly grateful to Chancellor Shri Shiv Kumar Gupta of Maharaja Agrasen Himalayan Garhwal University for his unwavering support and vision His dedication to fostering academic excellence and promoting a culture of innovation has been instrumental in bringing this project to fruition We hope this book will serve as a valuable resource and inspiration for those eager to deepen their understanding of how data warehousing strategies can be harnessed to drive efficiency and innovation We believe that the knowledge and insights contained within these pages will empower readers to lead the way in creating intelligent scalable data storage solutions that will define the future of data management Thank you for joining us on this journey Authors
