Don DeLillo David Cowart, 2012-08-15 Don DeLillo author of twelve novels and winner of the National Book Award the PEN Faulkner Award the William Dean Howells Medal and the Jerusalem Prize has begun to rival Thomas Pynchon as the

definitive postmodern novelist Always thought provoking and occasionally controversial DeLillo has become the voice of the bimillennial moment Charting DeLillo's emergence as a contemporary novelist of major stature David Cowart discusses each of DeLillo's twelve novels including his most recent work *The Body Artist* 2001 Rejecting the idea that DeLillo lacks affinities across the cultural spectrum Cowart argues that DeLillo's work invites comparison with that of wide range of antecedents including Dunbar Whitman Wittgenstein Heidegger Freud Lacan Derrida Hemingway Joyce Rilke and Eliot At the same time Cowart explores the ways in which DeLillo's art anticipates parallels and contests ideas that have become the common currency of poststructuralist theory The major site of DeLillo's engagement with postmodernism Cowart argues is language which DeLillo represents as more mysterious numinous even than current theory allows For DeLillo language remains what Cowart calls the ground of all making Don DeLillo *The Physics of Language* is a provocative investigation of the most compelling issues of contemporary fiction

Mitrano, Eric Jarosinski, 2009 This collection of essays by scholars and artists of different disciplines and from different countries is designed to navigate the labyrinth of contemporary aesthetic ideologies with the aim of reassessing how we read both the way in which texts touch us and we them Theory has transformed texts into mute interlocutors exposed to infinite indeterminacy While the response to this sense of silence that undermines meaning is often informed by a nostalgia for older notions of close reading the essays in this volume work towards a re evaluation of key subjects such as reader writer and text The contributors engage with topics such as digital books popular culture alternative ways of book making visual verbal collaborations and thematic explorations of the hand in literature

Madness in Cold War America Alexander Dunst, 2016-08-19 This book tells the story of how madness came to play a prominent part in America's political and cultural debates It argues that metaphors of madness rise to unprecedented popularity amidst the domestic struggles of the early Cold War and become a pre eminent way of understanding the relationship between politics and culture in the United States In linking the individual psyche to society psychopathology contributes to issues central to post World War II society a dramatic extension of state power the fate of the individual in bureaucratic society the political function of emotions and the limits to admissible dissent Such vocabulary may accuse opponents of being crazy Yet at stake is a fundamental error of judgment for which madness provides welcome metaphors across US diplomacy and psychiatry social movements and criticism literature and film In the process major parties and whole historical eras literary movements and social groups are declared insane Reacting against violence at home and war abroad countercultural authors oppose a sane madness to irrational reason romanticizing the wisdom of the schizophrenic and paranoia's superior insight As the Sixties give way to a plurality of lifestyles an alternative vision arrives of a madness now become so widespread and ordinary that it may finally escape pathology

Narrating from the Archive describes the historical development of the archival novel a fictional genre in which the narrative stores records bureaucratic writing informs language and the archive frames the readers apprehension of the text Archival novels have been written in two distinct paradigms legitimation and challenge While in the former paradigm the archive guarantees the novel s verisimilitude in the latter the archive is questioned as a hierarchized and politically biased system for establishing truth In this book Alessandro Manzoni s I promessi sposi Honore de Balzac s Ursule Mirouet and Le Colonel Chabert are examples of novels written within the paradigm of legitimation while Gustave Flaubert s Bouvard et Pecuchet permits the transition between the two paradigms George Perece s La vie mode d emploi and Don DeLillo s Libra represent cases of archival fiction written within the paradigm of challenge Sites of Autopsy in Contemporary Culture Elizabeth Klaver,2012-02-01

In this compelling interdisciplinary study Elizabeth Klaver considers how autopsies are performed in a variety of contexts from the real thing in hospitals and county morgues to various depictions in paintings novels plays films and television shows Autopsies can serve a variety of pedagogical legal scientific and social functions and the autopsied cadaver Klaver shows has lately become one of the most spectacular bodies offered up to the public on film television and the Internet Setting her discussion within the history of the modern autopsy and including the narrative of her own attendance at a medical autopsy Klaver makes the autopsy readable in a number of diverse venues from Rembrandt s The Anatomy Lesson and Vesalius s Fabrica to The Silence of the Lambs The X Files and CSI Moving from the actual autopsy itself to its broader symbolic ramifications Klaver addresses questions as disparate as the social constructedness of the body the perception and treatment of death under late capitalism and the ubiquity of paranoia in contemporary culture **Asia First** Joyce

Mao,2015-06-09 After Japanese bombs hit Pearl Harbor the American right stood at a crossroads Generally isolationist conservatives needed to forge their own foreign policy agenda if they wanted to remain politically viable When Mao Zedong established the People s Republic of China in 1949 with the Cold War just underway they had a new object of foreign policy and as Joyce Mao reveals in this fascinating new look at twentieth century Pacific affairs that change would provide vital ingredients for American conservatism as we know it today Mao explores the deep resonance American conservatives felt with the defeat of Chiang Kai Shek and his exile to Taiwan which they lamented as the loss of China to communism and the corrosion of traditional values In response they fomented aggressive anti communist positions that urged greater action in the Pacific a policy known as Asia First While this policy would do nothing to oust the communists from China it was powerfully effective at home Asia First provided American conservatives a set of ideals American sovereignty selective military intervention strident anti communism and the promotion of a technological defense state that would bring them into the global era with the positions that are now their hallmark **Critical Engagements: A Journal of Criticism and**

Theory 2.1 Philip Tew, **Late Imperial Romance** John A. McClure,1994-07-17 As the US imperium lurches towards its

economic twilight comparisons with the fate of the British Empire have become increasingly commonplace **The Environmental Unconscious in the Fiction of Don DeLillo** Elise Martucci, 2012-09-10 This book presents an ecocritical reading of DeLillo's novels in an attempt to mediate between the seemingly incompatible influences of postmodernism and environmentalism. Martucci argues that although DeLillo is responding to and engaging with a postmodern culture of simulacra and simulation, his novels do not reflect a postmodernist theory of the end of nature. Rather, his fiction emphasizes the lasting significance of the natural world and alerts us to the dangers of destroying it. In order to support this argument, Martucci examines DeLillo's novels in the context of traditional American literary representations of the environment, especially through the lens of Leo Marx's discussion of the conflict between technology and nature found in traditional American literature. She demonstrates that DeLillo's fiction explores the way in which new technologies alter perceptions and mediate reality to a further extent than earlier technologies; however, she argues that he keeps the material world at the forefront of his novels, thereby illuminating the environmental implications of these technologies. Through close readings of *American Pastoral*, *The Names*, *White Noise*, and *Underworld* and discussions of postmodernist and ecocritical theories, this project engages with current criticism of DeLillo's postmodernist fiction and environmental criticism.
