How to Stop Trying Kate Williams,2025-03-11 An unflinchingly honest and sometimes hilarious look at hustle culture exploring the forces that have shaped a generation of overachieving women who now find themselves in search of a better way forward Have you ever heard someone say I m trying to make it work and thought That sounds like a great idea Probably not Because the thing about trying is that it s tiring it s labor Anyone who has tried to have fun or to relax or to fall asleep knows this to be true And yet we exist within a culture that encourages us often with a frantic urgency to try and try harder We are told to try a different approach try to do or be better try to squeeze in a little bit more This is especially true of women who not only have to try harder than men to receive access to the same opportunities and resources but who are also conditioned to try in the name of meeting others needs and expectations often at the expense of their own well being In this galvanizing and illuminating read Kate tackles hustle culture head on exploring the ways in which women are primed to become relentless strivers From the workplace to motherhood from relationships to self care no arena of a woman s life is safe from the pressure to exceed expectations This conflation of self worth with achievement she argues is both toxic and counterproductive as the qualities we most seek happiness meaning purpose are not earned but rather owned Known for her astute cultural analysis and pitch perfect observations of generational trends Williams takes readers on a journey rooted in her own struggle to divest from an overachieving identity including the realizations that came in the wake of a painful fertility challenge Deeply felt passionately argued and often laugh out loud funny this is a book for every woman who has ever wondered what would happen if she stopped trying so hard and just let go

Rescue Thyself Sylvanus Ayeni,2017-03-29 This book is an in depth and bold dialogue with several constituencies about the necessity of finding alternative pathways to solve the monumental problems facing the nations of Sub Saharan Africa It asserts that the most formidable barriers to progress in Sub Saharan Africa are Sub Saharan Africans particularly the leaders Thus for these nations to escape from destitution change must originate from within African leaders are reminded that life anchored on the pursuit of money material wealth and power by any means is hollow empty and meaningless The future leaders of Sub Saharan Africa are reminded that the Creator has endowed them and the citizens of their nations with the talents they need to develop themselves and their societies Furthermore nature has been so kind to their nations endowing them with more than sufficient natural resources Thus they need not continue the culture of dependency on the rest of the human race
