Patterson, Aida Levy-Hussen, 2016-07-20 What would it mean to get over slavery Is such a thing possible Is it even desirable Should we perceive the psychic hold of slavery as a set of mental manacles that hold us back from imagining a postracist America Or could the psychic hold of slavery be understood as a tool helping us get a grip on the systemic racial inequalities and restricted liberties that persist in the present day Featuring original essays from an array of established and emerging scholars in the interdisciplinary field of African American studies The Psychic Hold of Slavery offers a nuanced dialogue upon these questions With a painful awareness that our understanding of the past informs our understanding of the present and vice versa the contributors place slavery's historical legacies in conversation with twenty first century manifestations of antiblack violence dehumanization and social death Through an exploration of film drama fiction performance art graphic novels and philosophical discourse this volume considers how artists grapple with questions of representation as they ask whether slavery can ever be accurately depicted trace the scars that slavery has left on a traumatized body politic or debate how to best convey that black lives matter The Psychic Hold of Slavery thus raises provocative questions about how we behold the historically distinct event of African diasporic enslavement and how we might hold off the transhistorical force of antiblack domination Vulnerable Earth Pramod K. Aljoe, Brycchan Carey, Thomas W. Krise, 2018-05-04 The Caribbean has traditionally been understood as a region that did not develop a significant native literary culture until the postcolonial period Indeed most literary histories of the Caribbean begin with the texts associated with the independence movements of the early twentieth century However as recent research has shown although the printing press did not arrive in the Caribbean until 1718 the roots of Caribbean literary history predate its arrival This collection contributes to this research by filling a significant gap in literary and historical knowledge with the first collection of essays specifically focused on the literatures of the early Caribbean before 1850 **Teaching Anglophone Caribbean Literature** Supriya M. Nair, 2012-10-01 This volume in the Options for Teaching series recognizes that the most challenging aspect of introducing students to anglophone Caribbean literature the sheer variety of intellectual and artistic traditions in Western and non Western cultures that relate to it also offers the greatest opportunities to teachers Courses on anglophone literature in the Caribbean can consider the region's specific histories and contexts even as they explore common issues the legacies of slavery colonialism and colonial education nationalism exile and migration identity and hybridity class and racial

After Katrina Anna Hartnell, 2017-01-25 Through the lens provided by the tenth anniversary of Hurricane Katrina *After Katrina* argues that the city of New Orleans emerges as a key site for exploring competing narratives of US decline and renewal at the beginning of the twenty-first century Deploying an interdisciplinary approach to explore cultural representations of the post-storm city Anna Hartnell suggests that New Orleans has been reimagined as a laboratory for a racialized neoliberalism and as such might be seen as a terminus of the American dream This US disaster zone has unveiled a network of social and environmental crises that demonstrate that prospects of social mobility have dwindled as environmental degradation and coastal erosion emerge as major threats not just to the quality of life but to the possibility of life in coastal communities across America and the world And yet *After Katrina* also suggests that New Orleans culture offers a way of thinking about the United States in terms that transcend the binary of national renewal or declension The post-Hurricane city thus emerges as a flashpoint for reflecting on the contemporary United States

Zombiescapes and Phantom Zones Lee Rozelle, 2016-11-08 A study of the natural world as imagined by contemporary writers specifically their portrayals of nature as monster In *Zombiescapes and Phantom Zones* Ecocriticism and the Liminal from *Invisible Man* to *The Walking Dead* Lee Rozelle chronicles the weirdest ugliest and most mixed up characters to appear on the literary scene since World War II creatures intimately linked to damaged habitats that rise from the muck not to destroy or rule the world but to save it The book asks what happens to these landscapes after the madness havoc and destruction What monsters and magic surface then Rozelle argues that zombiescapes and phantom zones depicted in the book become catalysts for environmental reanimation and sources of hope Liminality offers exciting and useful new ways to conceptualize places that have historically proven troublesome unwieldy or hard to define *Zombiescapes* can reduce the effects of pollution promote environmental justice lessen economic disparity and localize food production The grotesques that ooze and crawl from these passages challenge readers to consider new ways to re-inhabit broken lands at a time when energy efficiency fracking climate change the Pacific trade agreement local food production and sustainability shape the intellectual landscape Rozelle focuses on literary works from 1950 to 2015 the zombiescapes and monsterscapes of post-World War II literature that portray in troubling and often devastating ways the brownfields that have been divested of much of their biodiversity and ecological viability However he also highlights how these literary works suggest a new life and new potential for such environments With an unlikely focus on places of ruination and an application of interdisciplinary transnational approaches to a range of fields and texts Rozelle advances the notion that places of distortion might become a nexus where revelation and advocacy are possible again *Zombiescapes and Phantom Zones* has much to offer to various fields of scholarship including literary
