Jazz In Search Of Itself By Larry Kart:

Jazz in Search of Itself Larry Kart, 2008-10-01 In this engaging and astute anthology of jazz criticism Larry Kart casts a wide net. Discussing nearly seventy major jazz figures and many of the music's key stylistic developments, Kart sees jazz as a unique perpetual narrative one in which musicians, their audiences, and the evolving music itself are intimately intertwined. Because jazz arose from the collision of specific peoples under particular conditions, says Kart, its development has been unusually immediate, visible, and intense. Kart has reacted to and judged the music in a similarly active, attentive, and personal manner. His involvement and attention to detail are visible in these pieces: essays that analyze the supposed return to tradition that the music of Wynton Marsalis has come to exemplify; searching accounts of the careers of Miles Davis, Thelonius Monk, Bill Evans, and Lennie Tristano; and writing that explores jazz's relationship to American popular song and examines the jazz musician's role as actual and would-be social rebel. *Jazz/Not Jazz* David Ake, Charles Hiroshi Garrett, Daniel Ira

Goldmark, 2012-06-12 What is jazz? What is gained and what is lost when various communities close ranks around a particular definition of this quintessentially American music? *Jazz Not Jazz* explores some of the musicians' concepts, places, and practices which, while deeply connected to established jazz institutions and aesthetics, have rarely appeared in traditional histories of the form. David Ake, Charles Hiroshi Garrett, and Daniel Goldmark have assembled a stellar group of writers to look beyond the canon of acknowledged jazz greats and address some of the big questions facing jazz today. More than just a history of jazz and its performers, this collection seeks out those people and pieces missing from the established narratives to explore what they can tell us about the way jazz has been defined and its history has been told. **Is Jazz Dead?** Stuart

Nicholson, 2014-05-01 *Is Jazz Dead* examines the state of jazz in America at the turn of the twenty-first century. Musicians themselves are returning to New Orleans Swing and Bebop styles, while the work of the 60s avant-garde and even 70s and 80s jazz-rock is roundly ignored. Meanwhile, global jazz musicians are creating new and exciting music that is just starting to be heard in the United States, offering a viable alternative to the rampant conservatism here. Stuart Nicholson's thought-provoking book offers an analysis of the American scene: how it came to be so stagnant and what it can do to create a new level of creativity. This book is bound to be controversial among jazz purists and musicians; it will undoubtedly generate discussion about how jazz should grow now that it has become a recognized part of American musical history. *Is Jazz Dead* dares to ask the question on all jazz fan's minds: Can jazz survive as a living medium? And if so, how? **Improvising the**

On December 4, 1957, Miles Davis revolutionized film soundtrack production by improvising the score for Louis Malle's *Ascenseur pour l'échafaud*. A cinematic harbinger of the French New Wave, *Ascenseur* challenged mainstream filmmaking conventions, emphasizing experimentation and creative collaboration. It was in this environment during the late 1950s to 1960s, a brief golden age for jazz in film, that many independent filmmakers valued improvisational techniques.
