Jla Vol 7 Tower Of Babel By Mark Waid:

Batman and Ethics Mark D. White, 2019-04-29 Batman has been one of the world's most beloved superheroes since his first appearance in Detective Comics 27 in 1939. Clad in his dark cowl and cape, he has captured the imagination of millions with his single-minded mission to create a better world for the people of Gotham City by fighting crime, making use of expert detective skills, high-tech crime-fighting gadgets, and an extensive network of sidekicks and partners. But why has this self-made hero enjoyed such enduring popularity? And why are his choices so often the subject of intense debate among his fans and philosophers alike? *Batman and Ethics* goes behind the mask to shed new light on the complexities and contradictions of the Dark Knight's moral code. From the logic behind his aversion to killing to the moral status of vigilantism and his use of torture in pursuit of justice or perhaps revenge, Batman's ethical precepts are compelling but often inconsistent and controversial. Philosopher and pop culture expert Mark D. White uses the tools of moral philosophy to track Batman's most striking ethical dilemmas and decisions across his most prominent storylines from the early 1970s through the launch of the New 52, and suggests how understanding the mercurial moral character of the caped crusader might help us reconcile our own. A thought-provoking and entertaining journey through four decades of Batman's struggles and triumphs in time for the franchise's 80th anniversary, *Batman and Ethics* is a perfect gateway into the complex questions of moral philosophy through a focused character study of this most famous of fictional superheroes. **Other worlds and the narrative construction of otherness**

Esterino Adami, Francesca Bellino, Alessandro Mengozzi, 2017-10-10T00:00:00+02:00 The papers collected in this volume deal with the explorations of Science Fiction Fantasy and more generally the representation of otherness through the narrative construction of fantastic imaginary, appalling or attractive places, stories and figures. Contributions are arranged in four main sections. The first section, *Other spaces, new worlds*, deals with Hindi and Arabic Science Fiction. The second section, *Constructing forms of otherness*, analyses the narrative and psychological mechanisms that give forms to a stereotype or archetypal image of the threatening Other. The third section, *Re-shaping style's language's and discourse's of otherness*, is centred on the idea of language as a tool to build up styles, genres and texts, and literature as an escape from disappointing history and a cross-cultural wandering space of narrative ghosts. The fourth section, *Circulating fearful otherness*, tests the limits and heuristic potential of a philological approach in reconstructing the wide circulation of motifs and characters from antiquity to post-modernity. **Kaapse bibliotekaris**, 2003 Issues for Nov 1957 include section Accessions Aanwinste Sept 1957
