**The Middle Ages in Popular Imagination** Paul B. Sturtevant, 2019-08-22. It is often assumed that those outside of academia know very little about the Middle Ages. But the truth is not so simple. Non-specialists in fact learn a great deal from the myriad medievalisms, post-medieval imaginings of the medieval world that pervade our everyday culture. These like *Lord of the Rings* or *Game of Thrones* offer compelling if not necessarily accurate visions of the medieval world. And more they have an impact on the popular imagination particularly since there are new medievalisms constantly being developed, synthesised and remade. But what does the public really know? How do the conflicting medievalisms they consume contribute to their knowledge? And why is this important? In this book the first evidence-based exploration of the wider public's understanding of the Middle Ages. Paul B. Sturtevant adapts sociological methods to answer these important questions. Based on extensive focus groups the book details the ways both formal and informal that people learn about the medieval past and the many other ways that this informs and even distorts our present. In the process Sturtevant also sheds light in more general terms onto the ways non-specialists learn about the past and why understanding this is so important. *The Middle Ages in Popular Imagination* will be of interest to anyone working on medieval studies, medievalism, memory studies, medieval film studies, informal learning or public history.

The bravest among them are not what they seem: if arrested they will hang for their alleged crimes. Can they survive their journey and escape their fate? A tale of adventure and buccaneering love and revenge, stolen fortunes, piracy and hidden secrets on the high seas. *The Ghost Ship* is the third instalment in *The Joubert Family Chronicles*. The series concludes with *The Map of Bones*.
