Literature and Race in Los Angeles Julian Murphet, 2001-03-19 Los Angeles is both the most fragmented and the most minoritized metropolis in America and its most luridly abstract and aestheticized city With more than eighty five languages being spoken in its classrooms and one homogeneous visual language emanating from its entertainment industry LA radically challenges the prospects of that archaic representational medium literature In its investigation of the work of Bret Easton Ellis James Ellroy Anna Deveare Smith and others *Literature and Race in Los Angeles* articulates their aesthetic preoccupations with the structures of social space in the city Harnessing some of the theoretical insights of Henri Lefebvre and the LA school of geographers Murphet demonstrates the versatility of literary production in LA and speculates about the fortunes of literature in a predominantly visual culture

American author Bret Easton Ellis Released on June 15 2010 it is the sequel to *Less Than Zero* Ellis 1985 bestselling literary debut which was shortly followed by a film adaptation in 1987 *Imperial Bedrooms* revisits *Less Than Zero*'s self destructive and disillusioned youths as they approach middle age in the present day Like Ellis earlier novel which took its name from Elvis Costello's 1977 song of the same name *Imperial Bedrooms* is named after Costello's 1982 album *Imperial Bedrooms* unlike *Less Than Zero* is plot driven The action of the novel takes place twenty five years after *Less Than Zero* Its story follows Clay a New York based screenwriter after he returns to Los Angeles to cast his new film There he becomes embroiled in the sinister world of his former friends and confronts the darker aspects of his own personality The novel opens with a post modern literary device that establishes the world of *Imperial Bedrooms* to be similar to but not exactly that of *Less Than Zero* In doing this Ellis is able to comment on the earlier novel's style and on the development of its moralistic film adaptation The device also allows Ellis to explore Clay's pathological narcissism masochistic and sadistic tendencies and the exploitative personality none of which had been explicit in *Less Than Zero* Ellis chose to do this in part to dispel the sentimental reputation *Less Than Zero* has accrued over the years that of an artifact of the 1980s *Imperial Bedrooms* retains Ellis characteristic transgressive style and applies it to the 2000s decade and 2010s covering amongst other things the impact of new

Simulacra and Nothingness in Bret Easton Ellis' "Less Than Zero" Katharina Wagner,2020-02-05 Seminar paper from the year 2015 in the subject English Language and Literature Studies Literature grade 2.0 University of Cologne Englisches Seminar I course American Postmodern Literature language English abstract With his debut novel *Less Than Zero* Bret Easton Ellis set a milestone for a generation who needed a voice First published in 1985 when he was 21 and still at Bennington College Ellis is now considered as the celebrity author

of the postmodern era using the minimalist style for which the novel became famous. Writers of postmodern fiction also called Blank Fiction elegantly use a minimalist plot with flat characters in a simple style and as validated member of the Brat Pack Ellis combines urban life, violence, drugs, and consumerism. In the novel we follow Clay, the 18-year-old protagonist and student at Camden College in New Hampshire, coming back to Los Angeles for Christmas break. Experiencing several parties, concerts, affairs, and drugs with his old friends, Clay explores the apathy, boredom, and alienation from his old life. Although criticized for Ellis's straight nihilism, integrating his own celebrity persona into his art and creating a universe of immature characters who seem to grow older but without any growing effect, it is questionable if *Less Than Zero* is only just that: a world inhabited by rich and shallow characters without any purpose. With the help of Jean Baudrillard's simulation theory and Sartre's theory of Being and Nothingness, which will be introduced before analyzing the novel, this paper will address Clay's world of simulacra and Nothingness and argue for this being the purpose of the novel: creating a meaningless world. Through conversations and media, Clay becomes visible, who seeks for more beyond the surface and shallowness, and although the novel does not seem to follow a red thread, it suggests that Ellis, as an author of blank fiction, is well aware of what he is doing with *Less Than Zero*. How can a novel be a how-to-torture but also a book of serious ambition? Baelo Allu, 2011. This paper will show that an in-between is possible: an in-between between pornographic gore and serious postmodern literature, and maybe the two phrases do not contradict each other so much as assumed.

Opting Out Ana Sobral, 2012-01-01. *Opting Out* explores the theme of deviance as a form of protest in famous cult novels that have left an indelible mark on contemporary American culture, from Jack Kerouac's *On the Road* to Chuck Palahniuk's *Fight Club*. Adopting a generational lens, it centers on the deviant heroes and literary spokesmen of two major cohorts: the Baby Boomers and Generation X. Here, for the first time, the cult texts that defined these generations are submitted to a critical analysis that allows them to enter into a dialogue or rather a heated debate with each other. This opens new perspectives on the generation gap in America since 1945, offering a dynamic look at the role of youth as agents of social change and cultural innovation. The volume is of interest to students and researchers in contemporary American literature and culture as well as to fans of cult fiction in general. The interdisciplinary approach to the themes of generational conflict and deviant behaviour also makes a significant contribution to the fields of sociology, contemporary history, and cultural studies.
