Historia de las instituciones españolas Thomas Baumert, Carmen Paradinas Márquez, Andrés Sánchez Padilla, 2020-06-26 No cabe duda de que las instituciones y su historia importan no ya como elemento fundamental a la hora de explicar la evolución sociopolítica de un país sino como factor determinante del desarrollo económico el bienestar y la prosperidad Tradicionalmente la historia de las instituciones se ha venido explicando en España desde un enfoque eminentemente jurídico planteamiento que ha hecho que la materia resultase poco atractiva y de difícil asimilación a los estudiantes de reas afines como la Economía ADE Marketing y similares Es precisamente a estos colectivos a quienes va dirigido de forma preferente este libro en el que se presenta a la par rigurosa y amena una visión sucinta y adecuadamente contextualizada de la evolución de las instituciones españolas desde los primeros asentamientos humanos en la Península hasta la actualidad Para ello en cada capítulo se combinan la exposición del contexto histórico de un periodo con la descripción de sus instituciones más características y la explicación de la historia de los símbolos de España la bandera los sucesivos escudos sus condecoraciones etcétera Esta estructura modular junto a la presentación de la información diferenciada según su nivel de relevancia permitirán al lector adaptar y combinar la lectura de los textos que constituyen este libro en función de sus necesidades e intereses específicos optimizando así el resultado de su estudio en términos de aprendizaje El novedoso planteamiento didáctico seguido por los autores su definición de las instituciones en un sentido más amplio que el habitual así como el notable esfuerzo de síntesis ha dado lugar a una herramienta básica para el estudio de la materia que podrá ser empleada con provecho por estudiantes a pesar de que cuenten con conocimientos históricos previos escasos o dispares
