Death? Tyler Volk,2007-08-17 what is death A Scientist Looks at the Cycle of Life Answering the question What is death by focusing on the individual is blinkered It restricts attention to a narrow zone around the individual body of a creature Instead how expansive is the answer we receive when we look at the context of death within the biosphere Death now is tied to all of life via the atmosphere and ocean Death supports the awesome biological enterprise of making abundant the green and squiggly life Talk about death has headed us straight into a contemplation of life not only individual life but big life life on a global scale Death and life are neatly dovetailed by the supreme cabinetmaker of evolution Again the crucial feature is not the death of any one creature per se but rather what is done with death To reach into the meaning of death we must reach out into the wider context of which death is a part A Moral Life In Christ Textbook Sophia Institute for Teachers,
