The Southern Hospitality Myth Anthony Szczesiul, 2017-06 Hospitality as a cultural trait has been associated with the South for well over two centuries but the origins of this association and the reasons for its perseverance often seem unclear Anthony Szczesiul looks at how and why we have taken something so particular as the social habit of hospitality which is exercised among diverse individuals and is widely varied in its particular practices and so generalized it as to make it a cultural trait of an entire region of the country Historians have offered a variety of explanations of the origins and cultural practices of hospitality in the antebellum South Economic historians have at times portrayed southern hospitality as evidence of conspicuous consumption and competition among wealthy planters while cultural historians have treated it peripherally as a symptomatic expression of the southern code of honor Although historians have offered different theories they generally agree that the mythic dimensions of southern hospitality eventually outstripped its actual practices Szczesiul examines why we have chosen to remember and valorize this particular aspect of the South and he raises fundamental ethical questions that underlie both the concept of hospitality and the cultural work of American memory particularly in light of the region's historical legacy of slavery and segregation

Gay Men in Modern Southern Literature William Mark Poteet, 2006 The concept of masculinity has had a profound influence on modern gay written and gay themed American Southern literature Much of the fiction and drama of three important contemporary writers Tennessee Williams Charles Nelson and Reynolds Price has been shaped by the cultural dynamics of the Southern tradition of codified definitions and parameters of masculinity This regional approach to literature also serves as critically protective maintaining its focus in an effort to avoid essentializing experience and identity Gay Men in Modern Southern Literature will be a valuable asset in the study of gender construction literary theory and modern American Southern writing Publisher's website

Faulkner's Inheritance Joseph R. Urgo, Ann J. Abadie, 2007 Essays by Susan V Donaldson Lael Gold Adam Gussow Martin Kreiswirth Jay Parini Noel Polk Judith L Sensibar Jon Smith and Priscilla Wald William Faulkner once said that the writer collects his material all his life from everything he reads from everything he listens to everything he sees and he stores that away in sort of a filing cabinet in my case it s not anything near as neat as a filing case it s more like a junk box Faulkner tended to be quite casual about his influences For example he referred to the South as not very important to me I just happen to know it and don t have time in one life to learn another one and write at the same time His Christian background according to him was simply another tool he might pick up on one of his visits to the lumber room that would help him tell a story Sometimes he claimed he never read James Joyce s *Ulysses* or had never heard of Thomas Mann writers he would elsewhere declare as the two great men in my time Sometimes he expressed annoyance at readers who found esoteric theory in his fiction when all he wanted them to find was Faulkner I have never read Freud Neither did Shakespeare I doubt if Melville did either and I m sure Moby Dick didn t Nevertheless Faulkner s life was rich in what he did see and read and he seems to have remembered all of it and put it to use in his fiction Faulkner s *Inheritance* is a collection of essays that examines the influences on Faulkner s fiction including his own family history Jim Crow laws contemporary fashion popular culture and literature Joseph R Urgo is dean of the faculty at Hamilton College Ann J Abadie is associate director of the Center for the Study of Southern Culture at the University of Mississippi [Keywords for Southern Studies](#) Jennifer Rae Greeson, 2016-08-15 In *Keywords for Southern Studies* editors Scott Romine and Jennifer Rae Greeson have compiled an eclectic collection of new essays that address the fluidity of southern studies by adopting a transnational interdisciplinary focus The essays are structured around critical terms pertinent both to the field and to modern life in general The nonbinary

Multidisciplinary Research Approaches in Social Science Vol-1 Raghubar Prasad Singh, *Southern Literature and Literary Theory* Jefferson Humphries, 1992-07-01 In this stimulating collection of essays twenty scholars apply new theoretical approaches to the fiction and poetry of southern writers ranging from Poe to Dickey from Faulkner to Hurston Departing from earlier traditions of southern literary scholarship this book seeks not to create a new orthodoxy but to suggest the diversity of critical tools that can now be used to explore the literature and culture of the South Including essays based on deconstructionist feminist and Marxist theory the book features contributions from such critics as Henry Louis Gates Harold Bloom Fred Chappell and Joan DeJean Yet for all their variety the essayists share the same central concern We have in common writes Jefferson Humphries one thing that sets us apart from our elders in our conception of the South and our approach to southern literature the basic assumption that the meaning and significance of literature is not in the

immanence of the literary object or in history but in the complex ways in which the literary the historical and all the human sciences that study both are interrelated Instead of simply taking the South for granted the contributors to this volume see it as a text and an idea as something whose ideological underpinnings complexities and contradictions must be subjected to close reading and questioning Southern Literature and Literary Theory represents a major effort to redefine the relationship of southern writing and the South itself to the larger world At War with The Red Badge of Courage Kevin J. Struggles Over the Word Timothy Paul Caron, 2000 This literary critical study counters the usual tendency to segregate Southern literature from African American literary studies Noting that William Faulkner and Flannery O Connor are classified as Southern writers whereas Zora Neale Hurston and Richard Wright are considered black authors Timothy P Caron argues for an integrated study of the South s literary culture He shows that the interaction of Southern religion and race binds these four writers together Caron broadens our understanding of Southern literature to include both white and African American voices Analyzing O Connor s *Wise Blood* Faulkner s *Light in August* Hurston s *Moses Man of the Mountain* and Wright s *Uncle Tom s Children* Caron shows that these writers share an intertwined concern for issues of race and religion These two significant components of Southern culture form the intertextual network that binds together such seemingly disparate texts These authors not only interact among themselves in acknowledged and unacknowledged ways but also with the South s discursive practices Most particularly Caron sees common struggles over the Word as he investigates how these writers use the Bible in their understandings of race and religion in the American South While all four authors argue for the centrality of the Bible in both the black and white Southern experience each offers a different view of how this iconic text has shaped Southern culture and its literature
