Ramos,Victor Lrios Rosillo,Herwig Unger,2005-08-31 It is our pleasure to present the papers accepted and presented at the 5th Int national School and Symposium on Advanced Distributed Systems ISSADS in this LNCS volume The symposium was held in the city of Guadalajara Mexico from January 24 to 28 2005 The organization team was composed of members of CINVESTAV Guadalajara Rostock University in Germany the CUCEI and CUCEA campuses of Guadalajara University and Instituto Tecnológico y de Estudios Superiores de Occidente ITESO The symposium is already a well established annual meeting at which scientists and people from the industrial field meet and discuss the progress of applications and the theory of distributed

systems in a forum during the last week of January. This year more than 250 people from 3 continents attended the conference. Most of them are scientists, teachers, students, and engineers from the local industry. The papers presented in the sessions of the symposium cover not only the subjects of distributed systems from the system level and applications but also contributions from the area of theory and artificial intelligence concepts. These papers were selected out of more than 100 submissions. There was a selection letter in which each paper was evaluated by at least three members of the International Program Committee who came from research institutions of good reputation all over the world.
