The image shows a torn, white piece of paper with the words "Government spending" printed in a black, serif font. The paper is placed on a background of several US dollar bills, including \$100 and \$50 bills. The bills are slightly out of focus, and the paper's edges are ragged and torn. The overall composition suggests a theme of fiscal policy or government expenditure.

**Fiscal Limits, External Debt, and Fiscal Policy in Developing Countries** Huixin Bi, Ms. Wenyi Shen, Ms. Susan S. Yang, 2014-03-31 This paper studies fiscal policy effects in developing countries with external debt and sovereign default risks State dependent distributions of fiscal limits are simulated based on macroeconomic uncertainty and fiscal policy specifications The analysis shows that expected future revenue plays an important role in the low fiscal limits of developing countries relative to those of developed countries External debt carries additional risks since large devaluation of the real exchange rate can suddenly raise default probabilities Consistent with majority views fiscal consolidations are counterproductive in the short and medium runs When an economy approaches its fiscal limits government spending can be less expansionary than in a low debt state As more revenue is required to service debt in a high debt state higher tax rates raise the economic cost of increasing consumption reducing the fiscal multiplier
