**Between Art Practice and Psychoanalysis Mid-Twentieth Century** Beth Williamson, 2017-07-05 The work of mid twentieth century art theorist Anton Ehrenzweig is explored in this original and

timely study An analysis of the dynamic and invigorating intellectual influences institutional framework and legacy of his work *Between Art Practice and Psychoanalysis* reveals the context within which Ehrenzweig worked how that influenced him and those artists with whom he worked closely Beth Williamson looks to the writing of Melanie Klein Marion Milner Adrian Stokes and others to elaborate Ehrenzweig s theory of art a theory that extends beyond the visual arts to music In this first full length study on his work including an inventory of his library previously unexamined archival material and unseen artworks sit at the heart of a book that examines Ehrenzweig s working relationships with important British artists such as Bridget Riley Eduardo Paolozzi and other members of the Independent Group in London in the 1950s and 1960s In Ehrenzweig s second book *The Hidden Order of Art* 1967 his thinking on Jackson Pollock is important too It was this book that inspired American artists Robert Smithson and Robert Morris when they deployed his concept of dedifferentiation Here Williamson offers new readings of process art c 1970 showing how Ehrenzweig s aesthetic retains relevance beyond the immediate post war era *Contract with the Skin* Kathy O'Dell, 1998 Having oneself shot Putting out fires with the bare hands and feet Biting the body and photographing the marks Sewing one s own mouth shut all in front of an audience What do these kinds of performances tell us about the social and historical context in which they occurred Fascinating and accessibly written *CONTRACT WITH THE SKIN* addresses the question in relation to psychoanalytic and legal concepts of masochism 34 photos *Robert Smithson* Ann Reynolds, 2004-10-01 An examination of the interplay between cultural context and artistic practice in the work of Robert Smithson Robert Smithson 1938 1973 produced his best known work during the 1960s and early 1970s a period in which the boundaries of the art world and the objectives of art making were questioned perhaps more consistently and thoroughly than any time before or since In *Robert Smithson* Ann Reynolds elucidates the complexity of Smithson s work and thought by placing them in their historical context a context greatly enhanced by the vast archival materials that Smithson s widow Nancy Holt donated to the Archives of American Art in 1987 The archive provides Reynolds with the remnants of Smithson s working life magazines postcards from other artists notebooks and perhaps most important his library from which she reconstructs the physical and conceptual world that Smithson inhabited Reynolds explores the relation of Smithson s art making thinking about art making writing and interaction with other artists to the articulated ideology and discreet assumptions that determined the parameters of artistic practice of the time A central focus of Reynolds s analysis is Smithson s fascination with the blind spots at the center of established ways of seeing and thinking about culture For Smithson New Jersey was such a blind spot and he returned there again and again alone and with fellow artists to make art that through its location alone undermined assumptions about what and more important where art should be For those who guarded the integrity of the established art world New Jersey was elsewhere but for Smithson elsewheres were the defining if often forgotten locations on the map of contemporary culture

**Adrian Piper** John P. Bowles, 2011-02-14 This in depth analysis of Adrian Pipers art locates her groundbreaking work at

the nexus of Conceptual and feminist art of the late 1960s and 1970s      **All About Process** Kim Grant,2017-02-28 In recent years many prominent and successful artists have claimed that their primary concern is not the artwork they produce but the artistic process itself In this volume Kim Grant analyzes this idea and traces its historical roots showing how changing concepts of artistic process have played a dominant role in the development of modern and contemporary art This astute account of the ways in which process has been understood and addressed examines canonical artists such as Monet C zanne Matisse and De Kooning as well as philosophers and art theorists such as Henri Focillon R G Collingwood and John Dewey Placing process art within a larger historical context Grant looks at the changing relations of the artist s labor to traditional craftsmanship and industrial production the status of art as a commodity the increasing importance of the body and materiality in art making and the nature and significance of the artist s role in modern society In doing so she shows how process is an intrinsic part of aesthetic theory that connects to important contemporary debates about work craft and labor Comprehensive and insightful this synthetic study of process in modern and contemporary art reveals how artists explicit engagement with the concept fits into a broader narrative of the significance of art in the industrial and postindustrial world
