Three Odes of Pindar David C. Young, 1968 The Lost Island of Raj Saurabh Kumbhar, 2025-05-03 There is a boy named Raj who studies in college His grandfather loved to explore new places He discovered a mysterious island But even today no one knows about it Read the book to know how Raj discovers this mysterious island *Braudel Revisited* Gabriel Piterberg, Teofilo Ruiz, Geoffrey Symcox, 2015-10-06 Fernand Braudel 1912-1985 was a leading French historian and author of among other books the groundbreaking *The Mediterranean and the Mediterranean World in the Age of Philip II* 1949 One of the founders of the Annales School in France Braudel insisted on treating the Mediterranean region as a whole irrespective of religious and national divides Braudel's new historiography rejected political history as the dominant discipline and espoused a total history or a history from below that would tell the story of the vast majority of humanity hitherto excluded from the grand narrative At the time of the book's appearance this premise was revolutionary The contributors to *Braudel Revisited* assess the impact of Braudel's work on today's academic world in light of subsequent methodological shifts Engaging with Braudel's texts as well as with his ideas the essays in this volume speak to the enduring legacy of his work on the ongoing exploration of early modern history *The Copernican Question* Robert Westman, 2020-04-21 In 1543 Nicolaus Copernicus publicly defended his hypothesis that the earth is a planet and the sun a body resting near the center of a finite universe But why did Copernicus make this bold proposal And why did it matter *The Copernican Question* reframes this pivotal moment in the history of science centering the story on a conflict over the credibility of astrology that erupted in Italy just as Copernicus arrived in 1496 Copernicus engendered enormous resistance when he sought to protect astrology by reconstituting its astronomical foundations Robert S Westman shows that efforts to answer the astrological skeptics became a crucial unifying theme of the early modern scientific movement His interpretation of this long sixteenth century from the 1490s to the 1610s offers a new framework for understanding the great transformations in natural philosophy in the century that followed Invoking the Akelarre Emma Wilby, 2019-08-02 With their dramatic descriptions of black masses and cannibalistic feasts the records generated by the Basque witch craze of 1609-14 provide us with arguably the most demonologically stereotypical accounts of the witches sabbath or akelarre to have emerged from early modern Europe While the trials have attracted scholarly attention the most substantial monograph on the subject was written nearly forty years ago and most works have focused on the ways in which interrogators shaped the pattern of prosecutions and the testimonies of defendants *Invoking the Akelarre* diverts from this norm by employing more recent historiographical paradigms to analyze the contributions of the accused Through interdisciplinary analyses of both French and Spanish Basque records it argues that suspects were not passive recipients of elite demonological stereotypes but animated these received templates with their own belief and experience from the dark exoticism of magical conjuration liturgical cursing and theatrical misrule to the sharp pragmatism of domestic medical practice and everyday religious observance In highlighting the range of raw materials available to the suspects the book helps us to understand how the fiction of the witches sabbath emerged to such prominence

in contemporary mentalities whilst also restoring some agency to the defendants and nuancing the historical thesis that stereotypical content points to interrogatorial opinion and folkloric content to the voices of the accused In its local context this study provides an intimate portrait of peasant communities as they flourished in the Basque region in this period and leaves us with the irony that Europes most sensationally demonological accounts of the witches sabbath may have evolved out of a particularly ardent commitment on the part of ordinary Basques to the social and devotional structures of popular Catholicism

Essays and Remains of the Rev. Robert Alfred Vaughan Robert Alfred Vaughan,1858 The Fortnightly ,1884 *The Judgment of Prometheus* Ernest Myers,1886 **Essays and remains, ed. with a mem. by R.
