

HT RFID Upgrade Kit

Simple Upgrade Provides Security & Value

The HT RFID electronic lock upgrade provides great value by decreasing installation time, maintaining the UL fire rating for all Onity prepared doors and reducing time spent cleaning the read heads. The locks are also compatible with current Onity front desk systems: HT22, HT24 and OnPoint.

Current HT customers can easily upgrade to the HT RFID locking system with little interruption to the property's daily operations. With existing doors already prepared for the HT lock, installing the upgrade is simple – no drilling or cutting of doors, less disruption to the guests and fewer "out of service" rooms.

There are several ways to upgrade your current HT lock to RFID, including:

1. Replacing the entire lock and mortise
2. Switching the reader and cover to the new system
3. Changing the front half of the lock

Onity can help you determine the best upgrade plan for you by completing a no-cost site survey of your property. Set up an appointment today.
