Developmental Education ,2005      **The Leader and the Crowd** Daria Frezza,2010-01-25 Daria Frezza covers six tumultuous decades of transatlantic history to examine how European theories of mass politics and crowd psychology influenced American social scientists perception of crowds mobs democratic people and its leadership In the last decades of the nineteenth century the development of an urban industrial mass society and the disordered influx of millions of immigrants required a redefinition of these important categories in American public discourse Frezza shows how in the Atlantic crossing of ideas American social scientists reelaborated the European theories of crowd psychology and the racial theories then in fashion Theorists made a sharp distinction between the irrationality of the crowd including lynchings and the rationality of the democratic public However this paradigm of a rational Anglo Saxon male public in opposition to irrational mobs traditionally considered to be composed of women children savages was challenged by the reality of southern lynch mobs made up of white Anglo Saxons people who used mob violence as an instrument of subjugation over an allegedly inferior race After World War I when the topic of eugenics and immigration restrictions ignited the debate of exclusion inclusion regarding U S citizenship Franz Boas s work provided a significant counterbalance to the biased language of race Furthermore the very concept of democracy was questioned from many points of view During the Depression years social scientists such as John Dewey critically analyzed the democratic system in comparison to European dictatorships The debate then acquired an international dimension In the ideological rearmament of America on the eve of World War II social scientists criticized Nazi racism but at the same time stressed how racism was also deeply rooted in America This is a fresh and provocative look at the parallels between the emergence of America as a world power and the maturing of the new discipline of social science      *Encyclopedia of Leadership* George R. NEWS The enormous demands on leadership in today's world, the rise of militant followings, the struggle of long suppressed people to rise to leadership positions, the heightened demand for moral principled leadership, all these dynamic forces contribute to making this encyclopedia timely and timeless. From the Foreword by James MacGregor Burns, Williams College author of *Leadership* and winner of the Pulitzer Prize and National Book Award. As the field of leadership studies expands and the list of important authors and concepts grows, the time is at hand for a comprehensive encyclopedia of leadership. This collection will be welcomed by all who want to understand this important and complex field.

Howard Gardner, John H. and Elisabeth A. Hobbs, Professor of Cognition and Education at the Harvard Graduate School of Education and author of *Good Work When Excellence and Ethics Meet* (2001) and *Leading Minds: An Anatomy of Leadership* (1995). In 1975, he declared that the concept of leadership should be abandoned. It was not of course. The 300 contributors to the *Encyclopedia of Leadership* are leaders among the many thousands of scholars responsible for the health and vast breadth of leadership studies. They show us that leadership plays an important, increasingly integral role today in fields ranging from world politics to community development.

Bernard M. Bass, Distinguished Professor Emeritus, Center for Leadership Studies, School of Management, Binghamton University, and author of *Transformational Leadership: Industrial, Military, and Educational Impact* (1998) and *Leadership and Performance beyond Expectations* (1985). This new *Encyclopedia* provides leaders with the historical perspective and a vision of the tenuous future so essential if leaders of the future are to redefine leadership on their own terms with their own people.

Frances Hesselbein, Chairman of the Board of Governors, Leader to Leader Institute, formerly the Drucker Foundation, and coeditor of *On Creativity, Innovation, and Renewal: A Leader to Leader Guide* (2002) and *Leading Beyond the Walls* (1999). From the earliest times, people have been entranced by stories about leaders: about Greek city-state rulers, Roman consuls, Chinese emperors, religious potentates, military conquerors, and politicians. Perhaps more importantly, leadership is a challenge and an opportunity facing millions of people in their professional and personal lives.

The *Encyclopedia of Leadership* brings together for the first time everything that is known and truly matters about leadership as part of the human experience. Developed by the award-winning editorial team at Berkshire Publishing Group, the *Encyclopedia* includes hundreds of articles written by 280 leading scholars and experts from 17 countries, exploring leadership theories and leadership practice. Entries and sidebars show leadership in action in corporations and state houses, schools, churches, small businesses, and nonprofit organizations.

Questions the *Encyclopedia of Leadership* will answer: What is a leader? What is a great leader? How does someone become a leader? What are the types of leadership? How can leadership theories help us understand contemporary situations? How can I be a good and maybe great leader? The *Encyclopedia of Leadership* is an unprecedented learning resource. Scholars, students, professionals, and active citizens will turn to the *Encyclopedia* for guidance on the theory and practice of leadership, for the stories of great leaders, and for the tools and knowledge they need to lead in the 21st century.
