Becker-Shaffer's Diagnosis and Therapy of the Glaucomas

E-Book Robert L. Stamper, Marc F. Lieberman, Michael V. Drake, 2009-06-18 Authored by three prominent specialists in the field this text provides comprehensive coverage of diagnostic and treatment modalities for optimal glaucoma management. Revised throughout this new edition presents the latest guidance in clinical examination, randomized trials, medical treatment, laser therapy, and surgical procedures. Hundreds of illustrations with many classic black and white figures from the previous editions, supplemented with new color images, depict the features of glaucomas and step by step procedures for their management while expanded use of highlighted boxes, lists, and summary tables make the material easy to access. Evidence based and updated information on all aspects of the glaucomas including physiology, genetics, interventional trials, and new surgical techniques offer a well rounded foundation of knowledge for making the most informed diagnoses and choosing the most effective course of treatment. Combines the cumulative experience of three prominent glaucoma specialists addressing a full range of clinical needs for practitioners of all levels for a uniquely written coherent perspective. Includes extensive references to current and historically important sources to provide comprehensive interpretation of the latest medical literature. Synthesizes a classical approach to the glaucomas based on seven earlier editions spanning over 40 years with the most up to date evidence based and epidemiologically derived classifications and outcomes. Coherently correlates with authoritative consensus documents on key areas of glaucoma drawn up by the world wide specialists of the World Glaucoma Association and reprinted in the text. Revamps traditional teachings on the angle closure glaucomas in concert with the newest international literature and technologies to keep you up to date on the latest advances. Illustrates detailed surgical interventions applicable to the complete spectrum of clinical settings from the developing world through contemporary operating rooms. Examines the newest and most promising developments in pharmacology, laser, and surgical advances for glaucoma management to enable you to choose the most effective patient approach. Illustrates invaluable but little known instruments for clinical and research diagnoses including optic nerve cupping scales, bleb assessment instruments, and more.

Essential Business Fundamentals for the Successful Eye Care Practice Savak Teymoorian, 2024-06-01 A compact business education that strategically incorporates 500 keywords to lay the foundation and over 50 action items to initiate meaningful advances and excel in your eye care practice today. Medical training is a difficult journey with enormous amounts of information to absorb over a short time period. The intense time commitment required during this process leaves little opportunity to study any other discipline. However, even the most intelligent and well intentioned provider cannot care for patients if the front door of the building is closed. Simply put, a fundamental background in business is required to effectively practice medicine. Eye care professionals, which includes their ophthalmic staff, can now fill the critical gap in their education with Essential Business Fundamentals for the Successful Eye Care Practice providing them the necessary basic tools to make and execute winning practice management decisions. Writing in a high density format that medical professionals will be familiar with, Dr. Savak Teymoorian combines his physician training and experience as a successful ophthalmologist at

Harvard Eye Associates with the knowledge acquired earning his MBA This unique perspective allows him to provide the proper theory and execution in the business of eye care and present it in an efficient manner like that used in medical education Each chapter is dedicated to a different subject that would routinely be taught in a masters of business administration degree tailored specifically for eye care professionals and distilled into the most critical information for a strong foundation Each section is further enhanced with real life examples seen in ophthalmic care showing how to properly apply business strategies and tactics to obtain the best results Chapter topics include Marketing Leadership Negotiations Operations Finance Ophthalmologists optometrists and eye care staff will appreciate Essential Business Fundamentals for the Successful Eye Care Practice for its efficient and relevant information to running an eye care practice whether they are currently in training and want to set themselves up for success or they are already practicing and want to fill in a deficiency in their knowledge

Schacknow,John R. Samples,2010-06-10

Putting together a comprehensive multiauthored text is a daunting task However the benefits may justify the effort Such is the case with regards to the present Glaucoma Book It is not likely that many ophthalmologists or others will decide at the end of a busy day to pour themselves a cocktail and settle into a comfortable chair with this large tome in hand with the

intent of reading it from start to finish. A pity! It would make several enjoyable and profitable days of good reading. The text starts with comments by an individual who is strongly grounded in the fundamentals of being a good physician. Ivan Goldberg has used his brilliance, his wide international experiences and knowledge and his commitment to assuring that physicians know their craft to provide a penetrating perspective on ophthalmology today and tomorrow. The Glaucoma Book ends with commentaries by the editors John Samples, a true physician scientist and Paul Schacknow, an experienced community based clinician. Samples' essay 'What Really Causes Glaucoma' nicely describes the leading theories underlying the cell biology of glaucoma. In 'What Do We Know Now? What Do We Need to Know About Glaucoma?' Schacknow offers an essay on some of the controversial ideas raised within the book and speculates on future research.
