Nonlinear Dynamics and Chaos: Advances and Perspectives Marco

Thiel, Jürgen Kurths, M. Carmen Romano, György Károlyi, Alessandro Moura, 2010-05-17 This book is a collection of papers contributed by some of the greatest names in the areas of chaos and nonlinear dynamics Each paper examines a research topic at the frontier of the area of dynamical systems As well as reviewing recent results each paper also discusses the future perspectives of each topic The result is an invaluable snapshot of the state of the field by some of the most important researchers in the area The first contribution in this book the section entitled How did you get into Chaos is actually not a paper but a collection of personal accounts by a number of participants of the conference held in Aberdeen in September 2007 to honour Celso Grebogi's 60th birthday At the instigation of James Yorke many of the most well known scientists in the area agreed to share their tales on how they got involved in chaos during a celebratory dinner in Celso's honour during the conference This was recorded in video we felt that these accounts were a valuable historic document for the field So we decided to transcribe it and include it here as the first section of the book
