Archival Materialities in a Digital Age Eirini Goudarouli, Andrew Prescott, 2025-02-27 Materiality looms large in the world of archives in storage conservation and shape or materials of the records How does this materiality change in the digital age The way digital techniques and materialities transform our engagement with archives is highlighted and explored throughout Archival Materialities in a Digital Age

The Challenges of Born-Digital Fiction Dene Grigar, Mariusz Pisarski, 2024-03-13 The Challenges of Born Digital Fiction Editions Translations and Emulations addresses the growing concern about how best to maintain and extend the accessibility of early interactive novels and hypertext fiction or narratives These forms of born digital literature were produced before or shortly after the mainstreaming of the World Wide Web with proprietary software and on formats now obsolete Preserving and extending them for a broad study by scholars of book culture literary studies and digital culture necessitate they are migrated translated and emulated yet these activities can impact the integrity of the reader experience Thus this Element centers on three key challenges facing such efforts 1 precision of references identifying correct editions and versions of migrated works in scholarship 2 enhanced media translation approaching translation informed by the changing media context in a collaborative environment and 3 media integrity relying on emulation as the prime mode for long term preservation of born digital novels

Digital Humanities and Laboratories Urszula Pawlicka-Deger, Christopher Thomson, 2023-11-09 Digital Humanities and Laboratories explores laboratories dedicated to the study of digital humanities DH in a global context and contributes to the expanding body of knowledge about situated DH knowledge production Including a foreword by David Berry and

contributions from a diverse international range of scholars and practitioners this volume examines the ways laboratories of all kinds contribute to digital research and pedagogy Acknowledging that they are emerging amid varied cultural and scientific traditions the volume considers how they lead to the specification of digital humanities and how a locally situated knowledge production is embedded in the global infrastructure system As a whole the book consolidates the discussion on the role of the laboratory in DH and brings digital humanists into the interdisciplinary debate concerning the notion of a laboratory as a critical site in the generation of experimental knowledge Positioning the discussion in relation to ongoing debates in DH the volume argues that laboratory studies are in an excellent position to capitalize on the theories and knowledge developed in the DH field and open up new research inquiries Digital Humanities and Laboratories clearly demonstrates that the laboratory is a key site for theoretical and critical analyses of digital humanities and will thus be of interest to scholars students and practitioners engaged in the study of DH culture media heritage and infrastructure **The Routledge Companion to Digital Ethnography** Larissa Hjorth, Heather Horst, Anne Galloway, Genevieve Bell, 2017-01-20 With the increase of digital and networked media in everyday life researchers have increasingly turned their gaze to the symbolic and cultural elements of technologies From studying online game communities locative and social media to YouTube and mobile media ethnographic approaches to digital and networked media have helped to elucidate the dynamic cultural and social dimensions of media practice The Routledge Companion to Digital Ethnography provides an authoritative up to date intellectually broad and conceptually cutting edge guide to this emergent and diverse area Features include a comprehensive history of computers and digitization in anthropology exploration of various ethnographic methods in the context of digital tools and network relations consideration of social networking and communication technologies on a local and global scale in depth analyses of different interfaces in ethnography from mobile technologies to digital archives The Routledge Companion to Global Internet Histories Gerard Goggin, Mark McLelland, 2017-02-17 The Routledge Companion to Global Internet Histories brings together research on the diverse Internet histories that have evolved in different regions language cultures and social contexts across the globe While the Internet is now in its fifth decade the understanding and formulation of its histories outside of an anglophone framework is still very much in its infancy From Tunisia to Taiwan this volume emphasizes the importance of understanding and formulating Internet histories outside of the anglophone case studies and theoretical paradigms that have thus far dominated academic scholarship on Internet history Interdisciplinary in scope the collection offers a variety of historical lenses on the development of the Internet as a new communication technology seen in the context of older technologies as a new form of sociality read alongside previous technologically mediated means of relating and as a new media vehicle for the communication of content **Digital and Traditional Epigraphy in Context** Silvia Orlandi, Raffaella Santucci, Francesco Mambrini, Pietro Maria Liuzzo, 2017-07-01 This volume collects the proceedings of the final conference of the European project EAGLE Europeana network of Ancient Greek and

Latin Epigraphy held at the Sapienza University of Rome on January 28 30th 2016 The Discursive-Digital Link Ehsan Dehghan, 2025-08-22 We are in a state of crisis Democracy is under threat authoritarian politics are on the rise and digital media once heralded as emancipatory technologies are increasingly implicated in democratic erosion The Discursive Digital Link offers a critical framework for understanding the entangled relationships between discourse digital media and the hidden dynamics behind antagonism and polarisation The Discursive Digital Link presents a fluid social ontology that theorises how discourses and digital communication technologies are inseparably entangled and how this entanglement contributes to the formation of complex hierarchical relations Drawing on discourse theory and new materialist perspectives Dehghan maps how the various components of the discursive digital link users collectives identities the medium s design underlying neoliberal capitalist logics and structural power dynamics together shape antagonistic frontiers in digital spaces Through detailed case studies across multiple digital media Dehghan demonstrates how these entanglements manifest through different articulatory logics that could transform societies towards either agonistic progress or disastrous polarisation By revealing the logics of discursive digital alliances and active passivity Dehghan provides critical insights for academics activists and anyone seeking to foster progressive togetherness The Discursive Digital Link offers a powerful theoretical framework and methodology for analysing digitally mediated communication It challenges monolithic understandings of polarisation technological solutionism and symptom focused approaches instead advocating for radical structural interventions across all entangled components of the discursive digital link a necessary shift in both academic research and progressive political strategy to address the democratic crises of our time The Routledge Handbook of English Language and Digital Humanities Svenja Adolphs, Dawn Knight, 2020-04-16 The Routledge Handbook of English Language and Digital Humanities serves as a reference point for key developments related to the ways in which the digital turn has shaped the study of the English language and of how the resulting methodological approaches have permeated other disciplines It draws on modern linguistics and discourse analysis for its analytical methods and applies these approaches to the exploration and theorisation of issues within the humanities Divided into three sections this handbook covers sources and corpora analytical approaches English language at the interface with other areas of research in the digital humanities In covering these areas more traditional approaches and methodologies in the humanities are recast and research challenges are re framed through the lens of the digital The essays in this volume highlight the opportunities for new questions to be asked and long standing questions to be reconsidered when drawing on the digital in humanities research This is a ground breaking collection of essays offering incisive and essential reading for anyone with an interest in the English language and digital humanities Art History in the Age of Artificial Intelligence James Hutson, 2025-11-12 This book examines how artificial intelligence is transforming museums and art historical research by enhancing visitor inclusivity scholarly innovation and pedagogical practices Chapters explore practical implementations of intelligent technologies addressing

accessibility data driven research ethical frameworks administrative leadership and immersive digital learning Combining theoretical insights with case studies and practical guidelines it offers a comprehensive roadmap for responsibly integrating AI across art museums scholarship and education **Using Digital Humanities in the Classroom** Claire
