Adventure Diffusion Gero Vogl, 2019-01-09 This easy to read book looks at the many ways in which diffusion bears on processes that involve dispersion starting from the Brownian motion of molecules covering the invasion of exotic plants migration of populations epidemics and extending to the spreading of languages and ideas Recently there has been a growing interest in understanding migrations diffusion and spreading outside the hard natural sciences of physics and chemistry for example the spreading of plants introduced as a result of globalization Another fascinating story is that of human migration in the distant past i e the immigration of our ancestors who brought agriculture from the Near East or the fast spread of the Palaeo Indians into the Americas after the end of the Ice Age Likewise the spread of languages in the past and even more so the current spread and retreat of languages will be described here in terms of diffusion By understanding these principles there is hope that some of the less common languages that are threatened by globalization can be saved Another important implication discussed by the author concerns the outbreak of epidemics these may be mitigated if we understand their spreading mechanism Last but not least the spreading of ideas and innovations a process which changes the world sometimes faster than we wish can also be usefully described in this picture

The Adventures of Ragweed and Petals in the "Big Apple" Peter D. Snyder, 2014-10-15 This is a heartfelt story of childhood innocence and naivety a story that began out of boredom one very wet and rainy afternoon in Tokyo Japan While on a concert tour of Japan with the Los Angeles Philharmonic Orchestra in 1982 cellist artist and author Peter David Snyder happened to walk by a local stationary store on a very wet morning and noticed a uniquely packaged set of drawing pens Wanting something to draw with besides a pencil he went inside the store and purchased them Since the continual rainy weather showed no signs of letting up the pen set would enable him to enjoy the free time in a relaxed and creative manner As he began to sketch some arbitrary flowers he d seen outside the hotel in the gardens some ideas began to take shape on his sketchpad Gradually as he continued drawing he realized that their look and color could develop into something very special The idea of a comic strip featuring two talking

flowers came to mind The thought of two flowers talking to one another about the mundane daily activities that usually occurred in an average garden was interesting and intriguing Worms snails all crawling around them or the ever pervasive and creeping morning glory vines would provide constant banter for them in the beginning **Avi** Margaret Speaker Yuan,2013-11 A 2003 Newbery Award winner for his book *Crispin The Cross of Lead* Avi is one of the foremost children s and young adults authors read in the classroom today *The Remarkable Adventure of Princess Fu Xiao* Ronald Combs,2021-02-01 Fu Xiao was adopted from China as a baby One afternoon on a trip to the zoo she is confronted by a stranger who tells her that he is her older brother He explains that she is actually a princess in a mysterious kingdom called Le Yuan and that she has a twin sister The kingdom is in terrible trouble and only she can save it She agrees to try and this results in a wild ride to China on the back of a dragon and a series of thrilling confrontations with an evil witch and a scheming courtier To save the kingdom she must free her sister and overcome the magical powers of the witch The result is a delightful adventure that will keep you turning pages until the very end *Children's Literature in the Classroom* Diane M.
