William Le Queux 1864 1927 was an Anglo French writer who mainly wrote in the genres of mystery thriller and espionage particularly in the years leading up to World War I His best known works are the invasion fantasy novels The Great War in England in 1897 and The Invasion of 1910 *Clarence H. White and His World* Anne McCauley, 2017-01-01

Restoring a gifted art photographer to his place in the American canon and in the process reshaping and expanding our understanding of early 20th century American photography

Clarence H White 1871 1925 was one of the most influential art photographers and teachers of the early 20th century and a founding member of the Photo Secession This beautiful publication offers a new appraisal of White s contributions including his groundbreaking aesthetic experiments his commitment to the ideals of American socialism and his embrace of the expanding fields of photographic book and fashion illustration celebrity portraiture and advertising

Based on extensive archival research the book challenges the idea of an abrupt rupture between prewar soft focus idealizing photography and postwar modernism to paint a more nuanced picture of American culture in the Progressive era

Clarence H White and His World begins with the artist s early work in Ohio which shares with the nascent Arts and Crafts movement the advocacy of hand production closeness to nature and the simple life

White s involvement with the Photo Secession and his move to New York in 1906 mark a shift in his production as it grew to encompass commercial portraiture and an increasing commitment to teaching which ultimately led him to establish the first institutions in America to combine instruction in both technical and aesthetic aspects of photography

The book also incorporates new formal and scientific analysis of White s work and techniques a complete

exhibition record and many unpublished illustrations of the moody outdoor scenes and quiet images of domestic life for which he was revered

*Beyond the Metafictional Mode* Robert C. Spires, 2014-07-15

The term metafiction invaded the vocabulary of literary criticism around 1970 yet the textual strategies involved in turning fiction back onto itself can be traced through several centuries In this theoretical critical study Robert C Spires examines the nature of metafiction and chronicles its evolution in Spain from the time of Cervantes to the 1970s when the obsession with novelistic self commentary culminated in an important literary movement The critical portions of this study focus primarily on twentieth century works Included are analyses of Unamuno's *Niebla* Jarn's *Locura y muerte de nadie* and *La novia del viento* Torrente Ballester's *Don Juan Cunqueiro's* *Un hombre que se parec a a Orestes* and three novels from the self referential movement of the 1970s Juan Goytisolo's *Juan sin Tierra* Luis Goytisolo's *La colera de Aquiles* and Mart n Gait e's *El cuarto de atr s* Seeking a stronger theoretical basis for his critical readings Spires offers a sharpened definition of the term metafiction The mode arises he declares through an intentional violation of the boundaries that normally separate the worlds of the author the fiction and the reader Building on theoretical foundations laid by Frye Scholes Genette and others Spires also proposes a literary paradigm that places metafiction in a position intermediate between fiction and literary theory These theoretical formulations place Spires's book in the forefront of critical thought At the same time his full scale analyses of Spanish metafictional works will be welcomed by Hispanists and other students of world literature
