Advocacy Championing Ideas And Influencing Others:

Advocacy John A. Daly, 2011-08-30 When a group of people gather together to generate ideas for solving a problem or achieving a goal sometimes the best ideas are passed over. Worse a problematic suggestion with far less likelihood of success may be selected instead. Why would a group dismiss an option that would be more effective? Leadership and communications expert John Daly has a straightforward answer: it wasn't sold to them as well. If the best idea is yours, how can you increase the chances that it gains the support of the group? In *Advocacy: Championing Ideas and Influencing Others*, Daly explains in full detail how to transform ideas into practice. To be successful leaders in every type of organization must find practical and action-oriented ways to market their ideas and achieve buy-in from the members of the group. Daly offers a comprehensive action guide that explains how to shape opinion, inspire action, and achieve results. Drawing on current research in the fields of persuasion, power relations, and behavior change, he discusses the complex factors involved in selling an idea: the context of the communication, the type of message being promoted, the nature and interests of the audience, the emotional tenor of the issues at stake, and much more. For the businessperson, politician, or any other member of a group who seeks the satisfaction of having his or her own idea take shape and become reality, this book is an essential guide. *Advocacy* John A.

Daly, 2011-08-30 Offers advice, actions, and strategies for how to pitch a good idea to an influential group and gain their support. *Effective Advocacy* Mary Alice Haddad, 2021-03-23 An examination of successful environmental advocacy strategies in East Asia that shows how advocacy can be effective under difficult conditions. The countries of East Asia—China, Japan, South Korea, and Taiwan—are home to some of the most active and effective environmental advocates in the world. And the governments of these countries have adopted a range of innovative policies to fight pollution and climate change. Japan leads the world in emissions standards; China has become the world's largest producer of photovoltaic panels; and Taiwan and Korea have undertaken major green initiatives. In this book, Mary Alice Haddad examines the advocacy strategies that persuaded citizens, governments, and businesses of these countries to change their behavior. *Advocacy Practice for Social Justice* Richard Hoefer, 2015 Current economic and social forces are creating a society with less equality, justice, and opportunity for all but the privileged few. Social workers are called upon by their code of ethics to counteract these trends and actively work to achieve social justice. Hoefer's empirically based, step-by-step approach demonstrates how to integrate advocacy for social justice into everyday social work practice. The book shows, through anecdotes, case studies, examples, and the author's own personal experiences, exactly how advocacy can be conducted with successful outcomes. Each chapter builds upon the previous to provide a concise yet detailed blueprint for conducting successful advocacy. The previous two editions of this book have been used and admired by professors and students alike. Students value its clarity and praise the book for opening their eyes to what they often believed was the scary and bad world of politics and policy. After reading the book, they are motivated to become advocates for social justice because they understand how to do so. If you want to empower your

students to effect changes in laws regulations and other types of policy at all levels you will find this text the perfect resource to do so
