

8-1

Practice

Geometric Mean

Find the geometric mean between each pair of numbers.

1. 8 and 12

$$\sqrt{96} \text{ or } 4\sqrt{6} \approx 9.8$$

2. 3 and 15

$$\sqrt{45} \text{ or } 3\sqrt{5} \approx 6.7$$

3. $\frac{4}{5}$ and 2

$$\sqrt{\frac{8}{5}} \text{ or } \frac{2\sqrt{10}}{5} \approx 1.3$$

Write a similarity statement identifying the three similar triangles in the figure.

Figure 1

FIGURE 1 In a right triangle, an altitude is drawn from the vertex of the right angle to the hypotenuse. This altitude and the hypotenuse are both sides of the two smaller triangles. Thus, the two smaller triangles are both right triangles and both share a common side with the original triangle. The two smaller triangles are the triangles that contain the altitude and share the altitude as a common side. Thus, the two smaller triangles are the triangles that contain the altitude and share the altitude as a common side. Thus, the two smaller triangles are the triangles that contain the altitude and share the altitude as a common side.

Vector Quantization and Signal Compression Allen Gersho, Robert M. Gray, 2012-12-06 Herb Caen a popular columnist for the San Francisco Chronicle recently quoted a Voice of America press release as saying that it was reorganizing in order to eliminate duplication and redundancy This quote both states a goal of data compression and illustrates its common need the removal of duplication or redundancy can provide a more efficient representation of data and the quoted phrase is itself a candidate for such surgery Not only can the number of words in the quote be reduced without losing information but the statement would actually be enhanced by such compression since it will no longer exemplify the wrong that the policy is supposed to correct Here compression can streamline the phrase and minimize the embarrassment while improving the English style Compression in general is intended to provide efficient representations of data while preserving the essential information contained in the data This book is devoted to the theory and practice of signal compression i.e. data compression applied to signals such as speech audio images and video signals excluding other data types such as financial data or general purpose computer data The emphasis is on the conversion of analog waveforms into efficient digital representations and on the compression of digital information into the fewest possible bits Both operations should yield the highest possible reconstruction fidelity subject to constraints on the bit rate and implementation complexity

The Pearson Guide to Quantitative Aptitude for Professional-Course Examinations Khattar, 2007-09 *Business Statistics, 4th Edition* J.K. Sharma, 2018 The fourth edition of Business Statistics builds upon the easy to understand problem solving approach that was the hallmark of the previous editions Through detailed discussions on procedures that facilitate interpretation of data this book enables readers to make more considered and informed business decisions Using tools of application and practice in a variety of solved examples and practice problems this book will sharpen the students understanding of basic statistical techniques Business Statistics 4e serves as a core textbook for students of management commerce and computer science studying business statistics for degrees in BBA MBA PGDBM BCom MCom CA ICWA and BE BTech MCA as well as for those preparing for professional and competitive examinations Key Features Learning Objectives clearly outline the learning outcomes of each chapter Case Studies illustrate a variety of business situations and suggest solutions to managerial issues using specific statistical techniques A Chapter Concepts Quiz at the end of each chapter reinforces students understanding of the basic principles and applications Conceptual Questions Self Practice Problems

Review Self Practice Problems with Hint and Answers enable students after each chapter to practice and then evaluate themselves
