The Bad Poet Michael Paul Fuller, 2015-03-27 You never know about people Human predictability is the singular thing that mathematicians and scientists cannot calculate with 100% accuracy The human chemistry ebbs and flows from second to second where only one thing is certain and that is unpredictability Just as in one's own decision making where life's twist and turns will eventually dictate your final decision sometimes even when you know it is the wrong choice The time an individual spends on earth is as small as a tiny pebble tumbling down the Grand Canyon We should spend it as wisely as possible by measuring each day hour minute and second given to us Life is a fleeting spirit and with each breath worthy of congratulations as it is given only by the grace of God We must cherish it and nurture every moment as our transitory time marches to an end An end that man has been studying writing songs creating stories about and trying to beat since the beginning of his existence The tragedy of 9 11 changed many things for Americans that will never be the same In the cloudy days soon thereafter Carla King's husband disappeared without a trace and she was left with their daughter to survive After their divorce she was living a mundane life one day at a time when one night while out with friends she runs into Cutino Grigsby her mister right From the start time spent with Cutino was adventurous and lustful gregarious and fanciful free They danced the Marengo on the Bay of Biscay and flew with the doves over mountains of joy Their impromptu travels to faraway places and gifts from Cutino blinded her from any negative judgments about him His physical appearance was striking and his confidence brought her security and made Carla take a note of admiration But it is his deceit that teaches her the most as her renaissance man will bring changes into her life that she never anticipates She must hang on for the ride towards a crossroad of life which could land her in deep water or even her demise
