The Russians Deal English Edition:

The Russian Revolutionary Novel Richard Freeborn, 1985-02-28 Professor Freeborn's book is an attempt to identify and define the evolution of a particular kind of novel in Russian and Soviet literature the revolutionary novel This genre is a uniquely Russian phenomenon and one that is of central importance in Russian literature The study begins with a consideration of Turgenev's masterpiece *Fathers and Children* and traces the evolution of the revolutionary novel through to its most important development a century later in Pasternak's *Doctor Zhivago* and the emergence of a dissident literature in the Soviet Union Professor Freeborn examines the particular phases of the genre's development and in particular the development after 1917 the early fiction which explored the relationship between revolution and instinct such as Pilnyak's *The Naked Year* the first attempts at mythmaking in Leonov's *The Badgers* and Furmanov's *Chapayev* the next phase in which novelists turned to the investigation of ideas exemplified most notably by Zamyatin's *We* the resumption of the classical approach in such works as Olesha's *Envy* which explore the interaction between the individual and society and finally the appearance of the revolutionary epic in Gorky's *The Life of Klim Samgin* Sholokhov's *Quiet Flows the Don* and Alexey Tolstoy's *The Road to Calvary* Professor Freeborn also examines the way this kind of novel has undergone change in response to revolutionary change and he shows how an important feature of this process has been the implicit assumption that the revolutionary novel is distinguished by its right to pass an objective independent judgement on revolution and the revolutionary image of man This is a comprehensive and challenging study of a uniquely Russian tradition of writing which draws on a great range of novels many of them little known in the West As with other titles in this series all quotations have been translated

Congress. Senate. Committee on Foreign Relations, 1979 *A Plurilingual Analysis of Four Russian-American Autobiographies* Michele Russo, 2020-09-07 Among the many examples of Russian American migr literature a number of less known authors moved to the USA following their predecessors transnational and plurilingual experiences The bilingual and sometimes trilingual expressions in their works written in English invite a contrastive analysis of their transition from their source language Russian to their target language English This book explores the linguistic structure of the autobiographies of four Russian American writers Cournos Nabokov Berberova and Shteyngart bringing into focus the linguistic geology of their texts as they record their passage from a Russian world to an English one These linguistic passages are examined from both a synchronic and a diachronic perspective by dwelling on the geographies of the migr's itineraries as well as on the process of linguistic transformation that such itineraries generated By analyzing these writers geographic and linguistic routes this volume engages the reader in a metalinguistic discourse and highlights the influence of these first plurilingual experiments on modern theories concerning linguistic globalization History Of Russian Underwater Acoustics Oleg A Godin, David R Palmer, 2008-02-01 This book describes using first person accounts the history of the development in the Soviet Union and later in Russia of an extremely important technical field and how that history was influenced by WWI WWII and the Cold War by government bureaucracy in both positive and negative ways by the economic collapse of the Soviet Union and most importantly by the dedicated efforts of vast numbers of individuals including some of the greatest scientific minds of the 20th century It will make fascinating reading for engineers and scientists who were engaged in similar work in the West for historians of the Cold War and of the Soviet Union and for present day researchers who need to learn about Russian scientific contributions Because of its importance to national security much of the research and development effort in underwater acoustics was classified during the Cold War both in the Soviet Union and the United States This book presents the first declassified accounts of the development of numerous hydroacoustic systems by individuals having first hand knowledge of the development efforts

Humanitarian Activity in Russia, 1890-1923 Luke Kelly, 2017-11-27. This book analyses the efforts of British civil society to help a Russia seen to be struggling between 1890 and the 1920s. Luke Kelly seeks to show why churches, pressure groups, charities, politicians and journalists came to promote religious and political liberty and to relieve the victims of famines in late tsarist and early communist Russia. By focusing on the roles of Christian, Jewish and liberal interests in deploying humanitarian solutions, Kelly shows how humanitarianism developed from below while also examining the growth of a broader humanitarian discourse in the context of the Anglo-Russian relationship. **Western Marxism and the Soviet**

Union Marcel van der Linden, 2007-06-30. The Russian Question was an absolutely central problem for Marxism in the twentieth century. Numerous attempts were made to understand the nature of Soviet society. The present book tries to portray the development of these theoretical contributions since 1917 in a coherent, comprehensive appraisal. It aims to present the development of the Western Marxist critique of the Soviet Union across a rather long period in history, from 1917 to the present, and in a large region, Western Europe and North America. Within this demarcation of limits in time and space, an effort has been made to ensure completeness by paying attention to all Marxist analyses which in some way significantly deviated from or added to the older theories. *Encyclopedia of Literary Translation Into English: A-L* O.
