

ALEXANDER THE GREAT

THE RISE AND FALL OF THE MACEDONIAN EMPIRE

PHILLIP J. SMITH

Alexander The Great The Rise And Fall Of The Macedonian Empire

Phillip J. Smith

Alexander The Great The Rise And Fall Of The Macedonian Empire:

By the Spear Ian Worthington, 2014-06-02 A unique military and cultural history that chronicles the reigns of Philip and Alexander the Great in one sweeping narrative

Alexander the Great Phillip J. Smith, 2015-09-09 Born in Macedonia Alexander spent his childhood envious of his father's conquests. He watched his father head off to great battles and read of Greek heroes who were remembered forever for their bravery. All the while he wished that he too could become a hero in history. With the sudden death of his father, Alexander received his chance to become the hero that he always dreamed of being. Consolidating Greece and raising an army, he prepared for conquests in the Persian Empire. Through barren deserts and snowy mountain peaks, his men marched as they sought total conquest of the Great King's empire. When the empire had finally been won and the Great King eliminated, Alexander was not prepared to give up his dreams quite yet. While his men were ready to return to their homeland and enjoy their booty, Alexander wanted more. He dreamed of riding elephants into war in India, fighting desert tribes, and taking over the pyramids of Egypt. In short, only conquering the entire known world would be enough for his limitless ambition. It would only be the reluctance of his men or the admonitions of his general Parmenion who would hold Alexander back from achieving his dreams. By the age of 32, Alexander managed to accrue one of the largest empires that the world had ever seen. With a genius for administration and a rash, courageous approach to warfare, he conquered each land that he came across, always in search of an answer to the question: what's next? In his book entitled *Alexander The Great: The Rise and Fall of the Macedonian Empire*, author Phillip J. Smith magically takes you back to this specific time period and gives you a historically accurate picture of Alexander The Great and his incomparable Macedonian Empire.

The Cambridge Companion to Alexander the Great Daniel Ogden, 2024-01-18 A lucid introduction to the life and career of one of the most significant figures in world history. A geographically articulated biography is followed by studies of the key themes of his campaign and analyses of ways in which the king's image was presented and manipulated in antiquity itself.

The Military Legacy of Alexander the Great Michael P. Ferguson, Ian Worthington, 2023-11-28 Placing Alexander the Great's leadership, command skills, and grand strategy within the context of twenty-first century military challenges and thus showing continuities in leadership and warfare since his time, this volume demonstrates how and why Alexander is relevant to the modern world by emphasizing the need for human leadership in our digital era. Not only does this volume explore Alexander's rich military history, but also it provides a robust exploration of the twenty-first century security environment. Theorists and policy makers will gain insight into how Alexander's story informs our thinking about peace, war, and strategy, while practitioners and educators will encounter ways to improve their approaches to leader development and building curricula. Ferguson and Worthington set forth these lessons in a thematic framework that organises Alexander's reign into distinct parts, together with chapters discussing the lessons and warnings he brings to the modern world. Twenty-fifth National Security Advisor to the President of the United States, Lt Gen H R McMaster provides a

thoughtful conclusion to this fascinating volume Alexander's timeless campaigns remain as germane to this age as any other and demonstrate the critical importance of dynamic leadership and historical studies in an era increasingly dominated by the culture of technology The Military Legacy of Alexander the Great is expertly written for students and scholars in a variety of disciplines including Classics Ancient History Modern History Peace Studies and Military Studies It is also of great interest to senior defence leaders military academies leadership and management focused academic programmes intelligence organizations and senior service colleges The volume is also suitable for the general reader interested in warfare military history and history more broadly

The Last Kings of Macedonia and the Triumph of Rome Ian Worthington, 2023 The Last Kings of Macedonia and the Triumph of Rome provides a chronicle of the last three kings of Macedonia Philip V r 221 179 his son Perseus r 179 168 and the pretender Andriscus or Philip VI r 149 148 Far from being a mere postscript to Macedonia's Classical greatness or collateral damage in Rome's ascendancy in the east Philip and Perseus should be remembered for heroically striving to preserve their kingdom's independence against staggering odds

Alexander's Marshals Waldemar Heckel, 2016-08-05 This substantially revised and updated second edition of The Marshals of Alexander's Empire 1992 examines Alexander's most important officers who commanded army units and were involved in military and political deliberations Chapters on these men have been expanded giving greater attention to personalities bias in the sources and the social as well as military setting including more on familial connections and regional origins in an attempt to create a better understanding of factions The major confrontations military and political are treated in greater detail within the biographies and a discussion of the organization and command structure of the Makedonian army has been added

Ancient Macedonians in Greek and Roman Sources Tim Howe, Frances Pownall, 2018-12-31 Recent scholars have analysed ways in which authors of the Roman era appropriated the figure of Alexander the Great The essays in this collection cast a wider net to show how Classical Greek Hellenistic and Roman authors reinterpret and sometimes misinterpret information on ancient Macedonians to serve their own literary and political aims Although Roman ideas pervade the historiographical tradition this volume shows that the manipulation of ancient Macedonian history largely occurred much earlier It reflected the complicated dynastic politics of the Argead royal house the efforts of Alexander himself to redefine Macedonian kingship and the competing strategies of the Successors to claim his legacy Facing the complexity of the source tradition about the ancient Macedonians yields a richer and more balanced reflection of both the history and the historiography of this important and controversial people

Brill's Companion to the Reception of Alexander the Great, 2018-09-11 Brill's Companion to the Reception of Alexander the Great offers a considerable range of topics of interest to students and academics alike in the long tradition of this subject's significant impact across a sometimes surprising and comprehensive variety of areas Arguably no other historical figure has cast such a long shadow for so long a time Every civilisation touched by the Macedonian Conqueror along with many more that he never imagined has scrambled to own some part of his legacy This

volume canvasses a comprehensive array of these receptions beginning from Alexander's own era and journeying up to the present in order to come to grips with the impact left by this influential but elusive figure Ashoka and the Maurya Dynasty Colleen Taylor Sen, 2022-10-17 An illuminating history of the ancient Maurya Empire and its great leader Ashoka offering insight into the lasting political and cultural legacies of both At its peak in 250 BCE the Maurya Empire was the wealthiest and largest empire in the world extending across much of modern India Pakistan and Afghanistan In this book Colleen Taylor Sen explores the life achievements and legacy of the Maurya emperor Ashoka one of the greatest leaders in Indian history Sen relates how after a bloody war in 261 BCE Ashoka renounced violence and spent the rest of his life promoting religious tolerance animal rights environmental protection peace and multiculturalism a policy he called Dhamma This well illustrated book explores the legacy and influence of the Mauryas in politics throughout Southeast Asia China and India as well as contemporary popular culture *The End of Empires* Michael Gehler, Robert Rollinger, Philipp Strobl, 2022-11-21 The articles of this comprehensive edited volume offer a multidisciplinary global and comparative approach to the history of empires They analyze their ends over a long spectrum of humankind's history ranging from Ancient History through Modern Times As the main guiding question every author of this volume scrutinizes the reasons for the decline the erosion and the implosion of individual empires All contributions locate and highlight different factors that triggered or at least supported the ending or the implosion of empires This overall question makes all the contributions to this volume comparable and allows to detect similarities differences as well as inconsistencies of historical processes

Primary Sources for Ancient History Gary Forsythe, 2018-01-18 Primary Sources for Ancient History Volume I The Ancient Near East and Greece By Gary Forsythe Despite being condensed into neat identities of the Near East and Greece these two titles cover a wide ranging period of time peoples lands and philosophies Indeed at first glance these peoples might have nothing in common except for their profound impact on our own world In these comprehensive readings however we understand how all people struggled to define their relationship with their rulers their gods and their neighbors Primary Sources for Ancient History Volume I The Ancient Near East and Greece is a comprehensive selection of ancient writings to supplement a narrative history Beginning with the Old Babylonian Kingdom of nearly four millennia ago and moving chronologically and geographically to the Egyptian Pharaohs the dispossessed Jewish nations the fractured city kingdoms of Ancient Greece to end with Alexander's domination of the known world this book is comprehensive in scope Every major period and people has at least one reading From the Law Code of Hammurabi engraved on a stone pillar to scraps of Greek poetry from Babylonia epics to tallies of food at religious festivals these readings allow the personalities and actions of tyrants philosophers poets and gods to take center stage The same events and leaders can be seen through different peoples and viewpoints giving a rich perspective The Ancient Near East and Greece is a valuable resource for understanding the forces religious political and cultural that have developed the modern world *Ancient Historiography on War and Empire*

Timothy Howe, Sabine Müller, Richard Stoneman, 2016-11-30 In the ancient Greek speaking world writing about the past meant balancing the reporting of facts with shaping and guiding the political interests and behaviours of the present Ancient Historiography on War and Empire shows the ways in which the literary genre of writing history developed to guide empires through their wars Taking key events from the Achaemenid Persian Athenian Macedonian and Roman empires the 17 essays collected here analyse the way events and the accounts of those events interact Subjects include how Greek historians assign nearly divine honours to the Persian King the role of the tomb cult of Cyrus the Founder in historical narratives of conquest and empire from Herodotus to the Alexander historians warfare and financial innovation in the age of Philip II and his son Alexander the Great the murders of Philip II his last and seventh wife Kleopatra and her guardian Attalos Alexander the Great's combat use of eagle symbolism and divination Plutarch's juxtaposition of character in the Alexander Caesar pairing as a commentary on political legitimacy and military prowess and Roman Imperial historians using historical examples of good and bad rule to make meaningful challenges to current Roman authority In some cases the balance shifts more towards the literary and in others more towards the historical but what all of the essays have in common is both a critical attention to the genre and context of history writing in the ancient world and its focus on war and empire *Globalization of Knowledge in the Post-Antique Mediterranean, 700-1500* Sonja Brentjes, Jürgen Renn, 2016-05-05 The contributions to this volume enter into a dialogue about the routes modes and institutions that transferred and transformed knowledge across the late antique Mediterranean and the Persian Gulf Each contribution not only presents a different case study but also investigates a different type of question ranging from how history writing drew on cross culturally constructed stories and shared sets of skills and values to how an ancient warlord was transformed into the iconic hero of a newly created monotheistic religion Between these two poles the emergence of a new knowledge related but market based profession in Baghdad is discussed alongside the long distance transfer of texts doctrines and values within a religious minority community from the shores of the Caspian Sea to the mountains of the southern Arabian Peninsula The authors also investigate the outsourcing of military units and skills across religious and political boundaries the construction of cross cultural knowledge of the balance through networks of scholars patrons merchants and craftsmen as well as differences in linguistic and pharmaceutical practices in mixed cultural environments for shared corpora of texts drugs and plants **Brill's Companion to Ancient Greek and Roman Warfare on Film**, 2023-12-18 Brill's Companion to Ancient Greek and Roman Warfare on Film is the first volume exclusively dedicated to the study of a theme that informs virtually every reimagining of the classical world on the big screen armed conflict Through a vast array of case studies from the silent era to recent years the collection traces cinema's enduring fascination with battles and violence in antiquity and explores the reasons both synchronic and diachronic for the central place that war occupies in celluloid Greece and Rome Situating films in their artistic economic and sociopolitical context the essays cast light on the industrial mechanisms through which the ancient battlefield is refashioned in cinema and

investigate why the medium adopts a revisionist approach to textual and visual sources Greek Military Service in the Ancient Near East, 401–330 BCE Jeffrey Rop, 2019-06-20 Rewrites the military and political history of Greek military service in ancient Persia and Egypt

Battle Descriptions as Literary Texts Johanna Luggin, Sebastian Fink, 2020-02-14 Battle descriptions are usually seen as the raw material of the military historian who uses them to explain why generals won or lost a given battle This volume does not aim to contribute to this discussion it rather approaches battle descriptions as literary texts that interact with the expectations of a given audience Therefore literary traditions in structure vocabulary and topics of battle descriptions should be explored The transgression of genre borders also literary and fictional texts are included and a broad comparative approach combining evidence from the third millennium BC up to the 20th century AD makes cultural specifics and differences more easily perceivable Contents With contributions by Marcos Such Gutierrez Pavel Hilmir Klinkott Wolfgang Oswald Kai Ruffing Oliver Stoll Martin M Bauer Reinhold Bichler Christian Mileta Simon Lentzsch Sven Guther Dennis Pulina Johanna Luggin Sonja Koroliov Magdalena Gronau and Martin Gronau The Editors Dr Johanna Luggin is a post doc researcher in the ERC funded project NOSCEMUS Nova Scientia Early Modern Science and Latin in Innsbruck Austria Dr Sebastian Fink is a postdoctoral researcher at the Academy of Finland Centre of Excellence Changes in Sacred Texts and Traditions

Creators, Conquerors, and Citizens Robin Waterfield, 2018 A fascinating accessible and up to date history of the Ancient Greeks Covering the Archaic Classical and Hellenistic periods and centred around the disunity of the Greeks their underlying cultural unity and their eventual political unification

The Many Faces of War in the Ancient World Graham Wrightson, Sabine Müller, 2015-09-10 This volume on different aspects of warfare and its political implications in the ancient world brings together the works of both established and younger scholars working on a historical period that stretches from the archaic period of Greece to the late Roman Empire With its focus on cultural and social history it presents an overview of several current issues concerning the new military history The book contains papers that can be conveniently divided into three parts Part I is composed of three papers primarily concerned with archaic and classical Greece though the third covers a wide range and relates the experience of the ancient Greeks to that of soldiers in the modern world one might even argue that the comparison works in reverse Part II comprises five papers on warfare in the age of Alexander the Great and on its reception early in the Hellenistic period These demonstrate that the study of Alexander as a military figure is hardly a well worn theme but rather in its relative infancy whether the approach is the tried and true and wrongly disparaged method of Quellenforschung or that of experiencing war something that has recently come into fashion Part III offers three papers on war in the time of Imperial Rome particularly on the fringes of the Empire Covering a wide chronological span Greek Macedonian and Roman cultures and various topics this volume shows the importance and actuality of research on the history of war and the diversity of the approaches to this task as well as the different angles from which it can be analysed

Lives of the Attic Orators Joseph Roisman, Ian Worthington, 2015 This volume provides a

complete translation of and historical and historiographical commentary on the lives of the ten Attic orators given by Pseudo Plutarch Photius and the Suda Assessing these works as important historical sources for the individual lives and careers of the orators whose works have survived this systematic study explores how these literary biographies were constructed the information they provide and their veracity In depth commentary notes offer contextual information explain references and examine individual rhetorical phrases and a glossary of technical terms provides a quick reference guide to the more obscure oratorical and political terms The volume also includes a detailed introduction which discusses the evolution of Greek oratory and rhetoric the so called Canon of the Ten Orators the authorship dates and sources of the biographies provided by Pseudo Plutarch Photius and the Suda and a brief consideration of orators whose speeches were either falsely attributed to Demosthenes or may be referenced in the ancient lives

States of Memory David C. Yates, 2019 Drawing together recent work on memory theory and a wide range of ancient evidence *States of Memory* argues that the Greeks who fought and later commemorated the Persian War very rarely recalled the war as Greeks Instead they presented themselves as members of their respective city states

The Enigmatic Realm of **Alexander The Great The Rise And Fall Of The Macedonian Empire**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary.
