Analytical Investigations Concerning the Credibility of the Scriptures and of the Religious System Inculcated in Them James H. MACCULLOH,1852 *Decline and Fall of All Evil* Seymour Lessans,2015-09-01 Many theories as to how world peace could be achieved have been proposed yet war has once again taken its deadly toll in the 21st century The dream of peace has remained an unattainable goal until now The following pages reveal a scientific discovery regarding a psychological law of man s nature never before understood This finding was hidden so successfully behind layers and layers of dogma and misunderstanding that no one knew a deeper truth existed Once this natural law becomes a permanent condition of the environment it will allow mankind for the very first time to veer in a different direction preventing the never ending cycle of hurt and retaliation in human relations Although this discovery was borne out of philosophical thought it is factual not theoretical in nature **The Creative Artist, Mental Disturbance, and Mental Health** Elliot Benjamin,

Ph.D.,2017-04-21 This book describes The Artistic Theory of Psychology in which a dominant focus is on the successful creative artist and mental health However the book also describes the relationship of the creative artist to mental disturbance in various contexts including an innovative academic treatment personal experiential essays written by the author excerpts related to the author s semi autobiographical novel and illustrative blog excerpts from the author s struggling actor son The main theme of the book is that through humanistic supportive environments for creative artists the phenomenon of the successful creative artist in the context of success in both one s creative artistic endeavors as well as a satisfactory adjustment to day to day life can be nourished and enhanced The Foundations of Modern Science in the Middle Ages Edward Grant,1996-10-28 Contrary to prevailing opinion the roots of modern science were planted in the

ancient and medieval worlds long before the Scientific Revolution of the seventeenth century Indeed that revolution would have been inconceivable without the cumulative antecedent efforts of three great civilisations Greek Islamic and Latin With the scientific riches it derived by translation from Greco Islamic sources in the twelfth and thirteenth centuries the Christian Latin civilisation of Western Europe began the last leg of the intellectual journey that culminated in a scientific revolution that transformed the world The factors that produced this unique achievement are found in the way Christianity developed in the West and in the invention of the university in 1200 As this 1997 study shows it is no mere coincidence that the origins of modern science and the modern university occurred simultaneously in Western Europe during the late Middle Ages

A Perfect Loss Harry Clark, 2025-07-15 This fictional memoir is the author's effort to recapture the kaleidoscopic impressions of his childhood his neighborhood his school family and friends and the loss of each Returning to Tucson his familial home some forty years past Clark begins to dream of B Street the solitary block where he lived and attended both junior and senior high school This was his universe before an abrupt departure the summer of 1965 never again to see his friends left in his wake Not one to readily recall dreams his vivid nightly recollections are due in great part to intimations of his mortality brought on by a battle with Stage III melanoma He first deals with B Street and the abandonment in his play *The Combination* This however does not delve into his entering the existential abyss the ebon void his sophomore and junior year nor assuage his guilt about his seemingly indifferent interactions with friends who lost family due to suicide or murder And why those repeated dreams about a B Street murderer Mitch B who lived but a few doors up on the same side of the street And why does his family not talk of the deaths and suicides happening about B Street And why does he spend more time with the one kid on the street he really cannot tolerate Roy huddled over their coin collections their bullfighting memorabilia conjecturing on levitating canary cages obsessing over imperfect baseball cards and perfect games And whatever happened to Roy's brother Mikey his best friend his inseparable All these figures come back nightly to inhabit him as does this once small town of alley and desert freedoms And because he cannot explain all that transpires he seeks out an attorney who once defended murderer Mitch B and who lived but a block or two from B Street The attorney too has his say about Mitch B B Street the author The author and the attorney never to their recollection know of one another as kids only adding another why the improbability of such another near perfect loss
