Blood Ties And Fictive Ties:

Blood Ties and Fictive Ties Kristin Elizabeth Gager, 2014-07-14 In Paris during the sixteenth and seventeenth centuries the practice of adopting children was strongly discouraged by cultural religious and legal authorities on the grounds that it disrupted family blood lines In fact historians have assumed that adoption had generally not been practiced in France or in the rest of Europe since late antiquity Challenging this view Kristin Gager brings to light evidence showing how married couples and single men and women from the artisan neighborhoods in early modern Paris did manage to adopt children as their legal heirs In so doing she offers a new richly detailed portrait of family life civil law and public assistance in Paris and reveals how citizens forged a wide variety of family forms in defiance of social cultural and legal norms Gager bases her work on documents ranging from previously unexplored notarized contracts of adoption to court cases theological treatises and literary texts She examines two main patterns of adoption those privately arranged between households and those of destitute children from the Parisian foundling hospice and the H tel Dieu Gager argues that although customary law rejected adoption and promoted an exclusively biological model of the family there existed an alternative domestic culture based on a variety of fictive ties Gager connects her arguments to current debates about adoption and the nature of the family in Europe and the United States Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Power Over the Body, Equality**

in the Family Charles J. Reid, 2004-10-29 The term conjugal rights has long characterized ways of speaking about marriage both in the canonistic tradition and in the secular legal systems of the West This book explores the origins and dimensions of this concept and the range of meanings that have attached to it from the twelfth century to the present Employing far ranging sources Charles Reid Jr examines the language of marriage in classical Roman law the Germanic legal codes of early medieval Europe and the writings of canon lawyers and theologians from the medieval and early modern periods The heart of the book however consists of the writings of the canonists of the High Middle Ages especially the works of Hostiensis Bernard of Parma Innocent IV and Raymond de Peafort Reid s incisive survey provides a new understanding of subjects such as the right of parties to marry free of parental coercion the nature of paternal power the place of bodies in the marriage contract the meaning and implications of gender equality and the right of inheritance *Senses of Touch: Human Dignity and Deformity from Michelangelo to Calvin* Marjorie O'Rourke Boyle, 2021-10-11 Senses of Touch anatomizes the uniquely human hand as a rhetorical figure for dignity and deformity in early modern culture It concerns a valuational shift from the contemplative ideal as signified by the sense of sight to an active reality as signified by the sense of touch From posture to

piety from manicure to magic the book discovers touch in a critical period of its historical development in anatomy and society It features new interpretations of two landmarks of western civilization Michelangelo s fresco of the Creation of Adam and Calvin s doctrine of election It also accords special attention to the typing of women as sensual creatures by using their hands as a heuristic Its alternative interpretations explore in theory and in practice the sensuality the creativity and the plain utility of hands thus integrating biology and culture

Bonds of Alliance Brett Rushforth,2013-06-01 In the seventeenth and eighteenth centuries French colonists and their Native allies participated in a slave trade that spanned half of North America carrying thousands of Native Americans into bondage in the Great Lakes Canada and the Caribbean In Bonds of Alliance Brett Rushforth reveals the dynamics of this system from its origins to the end of French colonial rule Balancing a vast geographic and chronological scope with careful attention to the lives of enslaved individuals this book gives voice to those who lived through the ordeal of slavery and along the way shaped French and Native societies Rather than telling a simple story of colonial domination and Native victimization Rushforth argues that Indian slavery in New France emerged at the nexus of two very different forms of slavery one indigenous to North America and the other rooted in the Atlantic world The alliances that bound French and Natives together forced a century long negotiation over the nature of slavery and its place in early American society Neither fully Indian nor entirely French slavery in New France drew upon and transformed indigenous and Atlantic cultures in complex and surprising ways Based on thousands of French and Algonquian language manuscripts archived in Canada France the United States and the Caribbean Bonds of Alliance bridges the divide between continental and Atlantic approaches to early American history By discovering unexpected connections between distant peoples and places Rushforth sheds new light on a wide range of subjects including intercultural diplomacy colonial law gender and sexuality and the history of race

Families and Frontiers Kathryn Edwards, 2021-10-01 The frontier of the Early Modern Burgundies In this book Edwards applies in reverse the American frontier concept in order to understand the local changes in family and community in a Burgundy torn in two after the death of Charles the Bold in 1477 During the late fifteenth and early sixteenth centuries residents of the eastern duchy and the western county of Burgundy were in a place and time of transition and transformation a veritable frontier While France and the Holy Roman Empire vied for political control of the region residents struggled to define their social cultural political and economic relationships to each other In the region of the Sa ne River valley detailed case studies and family reconstruction of specific elites from the cities of Dijon Dole and Besan on are discussed The river ironically acted as a roadway not a barrier and facilitated the fluidity of the residents relationships Thus the Burgundian frontier was marked by a tacit acceptance of permeable boundaries and the ensuing choices interchanges negotiations and flexibility inherent to the region Edwards successfully argues that a frontier develops when a previously united region is divided and offers a provocative alternative interpretation to contrast with the national historiography most frequently used by scholars This book enhances our understanding of how pre modern societies created regional identities

The Afghan-Central Asia Borderland Suzanne Levi-Sanchez, 2016-07-15 Based on extensive long term fieldwork in the borderlands of Afghan and Tajik Badakhshan this book explores the importance of local leaders and local identity groups for the stability of a state's borders and ultimately for the stability of the state itself It shows how the implantation of formal institutional structures at the border a process supported by United Nations and other international bodies can be counterproductive in that it may marginalise local leaders and alienate the local population thereby increasing overall instability The study considers how in this

particular borderland where trafficking of illegal drugs weapons and people is rampant corrupt customs and border personnel and imperfect new institutional arrangements contributed to a complex mix of oppression hidden protest and subtle resistance which benefitted illicit traders and hindered much needed humanitarian work The book relates developments in this region to borderlands elsewhere especially new borders in the former Soviet bloc and argues that local leaders and organisations should be given semi autonomy in co ordination with state border forces in order to increase stability and the acceptance of the state
