**Laurie Shannon**

### **Blood Rituals The Crossroads Series 3:**

**Sacrifice and the Body** John Dunnill, 2016-04-08 What is sacrifice For many people today the word has negative overtones suggesting loss or death or violence But in religions ancient and modern the word is linked primarily to joyous feasting which puts people in touch with the deepest realities How has that change of meaning come about What effect does it have on the way we think about Christianity How does it affect the way Christian believers think about themselves and God John Dunnill's study focuses on sacrifice as a physical event uniting worshippers to deity Bringing together insights from social anthropology biblical studies and Trinitarian theology Dunnill links to debates in sociology and cultural studies as well as the study of liturgy Through a positive view of sacrifice Dunnill contributes to contemporary Christian debates on atonement and salvation

**Redeeming the Broken Body** Gabriel A. Santos, 2009-01-01 This book examines how repertoires of speech and action that are often considered to be mutually exclusive those of church and state clash or unite during the postdisaster period as local communities and cities struggle to establish a stable collective identity Based on an analysis of forty in depth interviews with disaster response participants and over 325 print media sources this study explores first the extent to which ministers and citizens challenge statist narratives in order to publicly relay theological views second the cultural processes by which local places are nationalized and theologized and third the ecclesiological convictions necessary to peaceably advance the work of Christ's body after disasters

**Sacrifice in Modernity: Community, Ritual, Identity**, 2016-09-27 In Sacrifice in Modernity Community Ritual Identity it is demonstrated how sacrificial themes remain an essential element in our post modern society

**Cahiers de la Femme**, 2003 **Magic Thief** Claire Farrell, Best read after Crossroads Ari never heard of a magic thief until she was condemned as one but that doesn't stop anyone from shipping her off to live alone in secret while she's being targeted by the leader of a powerful coven Loneliness is almost as bad as the thought of the witches binding her magic so it isn't long before she finds trouble and new friends who hate Ava Delaney and the Senate as much as Ari does When her old life and new conflict Ari's choices will alter the balance of power for bad or good

**The English Execution Narrative, 1200-1700** Katherine Royer, 2015-10-06 Royer examines the changing ritual of execution across five centuries and discovers a shift both in practice and in the message that was sent to the population at large She argues that what began as a show of retribution and revenge became a ceremonial portrayal of redemption as the political religious and cultural landscape of England evolved

**Esu Elegbara: Chance, Uncertainly In Yoruba Mythology** Ogundipe, Ayodele, 2018-06-14 This original work is a two volume study of the Yoruba deity Volume one consisted of six chapters three appendices and a bibliography The texts of praise poems or k songs and narratives selected from research in the field comprise volume two

**Master of Souls (Kingdom of Souls trilogy, Book 3)** Rena Barron, 2023-07-06 A KING WITH A SCORE TO SETTLE A DEMON DRIVEN TO REBEL A GIRL

WHO HOLDS THE POWER OF THE GODS The epic conclusion to the fantasy trilogy set in a world of magic and legend Perfect for fans of Tomi Adeyemi Laini Taylor and Sarah J Maas      **Liberating Paul** Neil Elliott, 2005-02-01 For centuries the apostle Paul has been invoked to justify oppression whether on behalf of slavery to enforce unquestioned obedience to the state to silence women or to legitimate anti-Semitism To interpret Paul is thus to set foot on a terrible battleground between spiritual forces But as Neil Elliott argues the struggle to liberate human beings from the power of Death requires Liberating Paul from his enthrallment to that power In this book Elliott shows that what many people experience as the scandal of Paul is the unfortunate consequence of the way Paul has usually been read or rather misread in the churches In the first half of the book Elliott examines the many texts historically interpreted to support oppression or maintain the status quo He shows how often Paul's authentic message has been interpreted in the light of later pseudo-Pauline writings In Part Two Elliott applies a political key to the interpretation of Paul Though subsequent centuries have turned the cross into a symbol of Christian piety Elliott forcefully reminds us that in Paul's time this was the Roman mode of executing rebellious slaves a fact that has profound political implications      On Greek Religion Robert C.T. Parker, 2011-08-15 There is something of a paradox about our access to ancient Greek religion We know too much and too little The materials that bear on it far outreach an individual's capacity to assimilate so many casual allusions in so many literary texts over more than a millennium so many direct or indirect references in so many inscriptions from so many places in the Greek world such an overwhelming abundance of physical remains But genuinely revealing evidence does not often cluster coherently enough to create a vivid sense of the religious realities of a particular time and place Amid a vast archipelago of scattered islets of information only a few are of a size to be habitable from the Preface In On Greek Religion Robert Parker offers a provocative and wide-ranging entrance into the world of ancient Greek religion focusing especially on the interpretive challenge of studying a religious system that in many ways remains desperately alien from the vantage point of the twenty-first century One of the world's leading authorities on ancient Greek religion Parker raises fundamental methodological questions about the study of this vast subject Given the abundance of evidence we now have about the nature and practice of religion among the ancient Greeks including literary historical and archaeological sources how can we best exploit that evidence and agree on the central underlying issues Is it possible to develop a larger unified theoretical framework that allows for coherent discussions among archaeologists anthropologists literary scholars and historians In seven thematic chapters Parker focuses on key themes in Greek religion the epistemological basis of Greek religion the relation of ritual to belief theories of sacrifice the nature of gods and heroes the meaning of rituals festivals and feasts and the absence of religious authority Ranging across the archaic classical and Hellenistic periods he draws on multiple disciplines both within and outside classical studies He also remains sensitive to varieties of Greek religious experience Also included are five appendixes in which Parker applies his innovative methodological approach to particular cases such as the acceptance of new gods and the consultation of oracles

On Greek Religion will stir debate for its bold questioning of disciplinary norms and for offering scholars and students new points of departure for future research      Magic and Ritual in the Ancient World Paul Allan Mirecki, Marvin W. Meyer, 2002 This volume contains a series of provocative essays that explore expressions of magic and ritual power in the ancient world The strength of the present volume lies in the breadth of scholarly approaches represented The book begins with several papyrological studies presenting important new texts in Greek and Coptic continuing with essays focussing on taxonomy and definition The concluding essays apply contemporary theories to analyses of specific test cases in a broad variety of ancient Mediterranean cultures Paul Mirecki Th D 1986 in Religious Studies Harvard Divinity School is Associate Professor of Religious Studies at the University of Kansas Marvin Meyer Ph D 1979 in Religion Claremont Graduate School is Professor of Religion at Chapman University Orange California and Director of the Coptic Magical Texts Project of the Institute for Antiquity and Christianity      **Magical Medicine** Wayland D. Hand, 2023-04-28 Distilling baby's first tear into the eye of a blind man to make him see Plucking herbs upward for emetics and downward for purgatives Stroking one's goiter with a dead man's hand to make the growth shrivel away these are not beliefs and customs found among primitive peoples in remote parts of the world but are examples of hundreds of items of magical medicine found in Professor Hand's remarkable collection of essays dealing with this neglected field in twentieth century Europe and America Fantasy and imagination still have free reign in people's lives more than any of us will admit In a time when science is preeminent irrational thinking can lay hold on the mind of man as much as in olden times Folk medicine has expanded in recent years to include holistic medicine and other forms of alternative medicine but little attention has been paid to magical medicine Despite the benefits of medical science in an advance culture the magical medicine of Europe and America has clung to an unusually rich and original body of magical lore that lies at the base of its folk medical thought Ethnomedicine in the inner cities of America can be better understood by practitioners who know something about folk medicine and especially if they know some of the basics of magical medicine This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1980      *No Magic Bullet* Allan M. Brandt, 2020 The epidemic of AIDS and herpes virus has called into question not only the ability of the medical profession to treat venereal disease but also its willingness to do so No Magic Bullet a perceptive analysis of the treatment of venereal diseases since the 1880s places these questions in critical historical perspective Beginning with Victorian hysteria about syphilis and continuing to contemporary treatment of AIDS Allan Brandt recounts the various medical military and public health responses to venereal diseases that have arisen over the years Brandt demonstrates that Americans tendency to view sexually transmitted disease as both a punishment for sexual misconduct and an index of social decay has seriously impeded efforts to develop magic bullets the miracle drugs that would

effectively halt the spread of infection For this 35th Anniversary Edition Brandt reflects on recent scholarship the persistence of sexually transmitted diseases and the trajectory of the HIV epidemic as they have informed contemporary conceptions of biomedicine and global health **Canadian Books in Print** ,1998 **The Accommodated Animal** Laurie

Shannon,2024-05-31 Shakespeare wrote of lions shrews horned toads curs mastiffs and hellhounds But the word animal itself only appears very rarely in his work which was in keeping with sixteenth century usage As Laurie Shannon reveals in *The Accommodated Animal* the modern human animal divide first came strongly into play in the seventeenth century with Descartes s famous formulation that reason sets humans above other species I think therefore I am Before that moment animals could claim a firmer place alongside humans in a larger vision of belonging or what she terms cosmopolity With Shakespeare as her touchstone Shannon explores the creaturely dispensation that existed until Descartes She finds that early modern writers used classical natural history and readings of Genesis to credit animals with various kinds of stakeholdership prerogative and entitlement employing the language of politics in a constitutional vision of cosmic membership Using this political idiom to frame cross species relations Shannon argues carried with it the notion that animals possess their own investments in the world a point distinct from the question of whether animals have reason It also enabled a sharp critique of the tyranny of humankind By answering the question of the animal historically *The Accommodated Animal* makes a brilliant contribution to cross disciplinary debates engaging animal studies political theory intellectual history and literary studies

Tlacuilolli Karl Anton Nowotny,2005 Appearing for the first time in English Karl Anton Nowotny s *Tlacuilolli* is a classic work of Mesoamerican scholarship A concise analysis of the pre Columbian Borgia Group of manuscripts it is the only synthetic interpretation of divinatory and ritual codices from Mexico Originally published in German and unavailable to any but the most determined scholars *Tlacuilolli* has nevertheless formed the foundation for subsequent scholarly works on the codices Its importance extends beyond the study of Mexican codices Nowotny s sophisticated reading of these manuscripts informs our understanding of Mesoamerican culture Of particular importance are Nowotny s corrections of errors in fact and interpretation in the Spanish edition of Eduard Seler s commentary on the Borgia Group George A Everett and Edward B Sisson have translated Nowotny s masterwork into English while maintaining the flavor of the original German edition To the core text they have added an extensive bibliography and constructed a framework of annotation that relates the principles in *Tlacuilolli* to current research This edition includes a selection of eleven stunning full color images chosen from the original catalog **Magika Hiera** Christopher A. Faraone,Dirk Obbink,1997-02-13 This collection challenges the tendency among scholars of ancient Greece to see magical and religious ritual as mutually exclusive and to ignore magical practices in Greek religion The contributors survey specific bodies of archaeological epigraphical and papyrological evidence for magical practices in the Greek world and in each case determine whether the traditional dichotomy between magic and religion helps in any way to conceptualize the objective features of the evidence examined Contributors include Christopher A Faraone J H

M Strubbe H S Versnel Roy Kotansky John Scarborough Samuel Eitrem Fritz Graf John J Winkler Hans Dieter Betz and C R Phillips     **Pre-colonial Africa in Colonial African Narratives** Donald R. Wehrs, 2008 Donald Wehrs explores pioneering narrative representations of pre colonial African history and society in texts by Casely Hayford Alhaji Sir Abubaker Tafawa Balewa Paul Hazoum D O Fagunwa Amos Tutuola and Chinua Achebe By highlighting the role of pre colonial political economies and articulations of state power on colonial era considerations of ethical and political issues his book supplements recent work on the importance of indigenous contexts and discourses in situating colonial era narratives     Talking Animals Jan M. Ziolkowski, 2016-11-11 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press s distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas     *Star Gods of the Maya* Susan Milbrath, 1999-01-01 Observations of the sun moon planets and stars played a central role in ancient Maya lifeways as they do today among contemporary Maya who maintain the traditional ways This pathfinding book reconstructs ancient Maya astronomy and cosmology through the astronomical information encoded in Precolumbian Maya art and confirmed by the current practices of living Maya peoples Susan Milbrath opens the book with a discussion of modern Maya beliefs about astronomy along with essential information on naked eye observation She devotes subsequent chapters to Precolumbian astronomical imagery which she traces back through time starting from the Colonial and Postclassic eras She delves into many aspects of the Maya astronomical images including the major astronomical gods and their associated glyphs astronomical almanacs in the Maya codices painted books and changes in the imagery of the heavens over time This investigation yields new data and a new synthesis of information about the specific astronomical events and cycles recorded in Maya art and architecture Indeed it constitutes the first major study of the relationship between art and astronomy in ancient Maya culture

## Adopting the Track of Phrase: An Emotional Symphony within **Blood Rituals The Crossroads Series 3**

In a world consumed by displays and the ceaseless chatter of fast connection, the melodic elegance and psychological symphony produced by the published word usually disappear into the back ground, eclipsed by the persistent noise and distractions that permeate our lives. But, situated within the pages of **Blood Rituals The Crossroads Series 3** a charming fictional prize filled with organic emotions, lies an immersive symphony waiting to be embraced. Crafted by a wonderful musician of language, that interesting masterpiece conducts viewers on a mental trip, skillfully unraveling the hidden songs and profound influence resonating within each cautiously crafted phrase. Within the depths of this moving review, we can investigate the book is key harmonies, analyze its enthralling writing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
